About Us

Girls Education Mission International is the lead grass root organization in promoting, defending and protecting the right to education of girls worldwide. We inspire girls to walk in the fullness of their potential as visionary women leaders. GEM was emerged out of a pressing need among young women and girls who are deprived of education and training opportunity to attain a better life. GEM believes that girls can excel and reach their potential as women leaders if their education is fully supported and promoted. We are registered in Nigeria with the Corporate Affairs Commission (CAC/IT/NO 45818) and also with the Special Control Unit Against Money Laundering (SCUML) of the Economic and Financial Crime Commission (EFCC) of the Federal Republic of Nigeria (RN: SC 321400084). GEM is globally top-rated by the Greatnonprofits.org 2015 Awards.

OUR VISION

We want to see girls and women creating change and making lasting impact in their communities. We are at the center of global commitment to reach out to and advance the circumstances of girls who are deprived of education and training opportunities to attain a better life.

OUR MISSION

Girls Education Mission International is on a mission to establish visionary teams of young women and girls with relevant knowledge and practical skills that will help them move away from Chaos to Contentment and agent of change capable of helping themselves and influencing their communities for good. We are intentionally teaming inspiring innovators with needful girls to equip them to pass forward all they have learned as valuable, contributing agents of change in their communities. Thus our motto "To be Willing, Equipped and Available....." Beginning at the heart, we help young women and girls commit themselves to education and concrete goals, while helping them discover and develop their unique talents, and potentiality. Both self-disciplined and imaginative, these girls are becoming productive citizens and visionary leaders capable of teamwork and shaping a positive, sustainable society.
