

And the Research says...
*Literacy is directly related to
a child's success in life.*

StoryBook Treasures (SBT) is a revolutionary literacy enrichment program designed for Title 1 schools to foster a strong home school connection, and close the gap among disadvantaged and minority children.

We work directly with Title 1 schools and teachers to implement the SBT program within the classroom setting. Teachers are trained to use the program presentations, materials and lesson plans to promote rich vocabulary, higher level thinking and a story connection so strong, students are able to recite the story from memory. Children learn to build a home library with the program's books and supplemental materials. This method fosters the essential home school reading connection that is vital to literacy. Our program success is proven through data collection and is supported by each teacher, parent and child we touch.

The SBT Program provides:

- ◇ 2 hour on-site professional development training for teachers
- ◇ On-going educational consulting
- ◇ Technical and program support
- ◇ Books, backpacks, teaching materials and SBT treasures for each student enrolled

StoryBook Treasures meets the TITLE 1 FAMILY ENGAUGEMENT requirement through literacy.
