

Daily Report

Name – Tushar Nayak

Register number – 2022JULB07009

Group No. – 3

Cluster – Pondicherry

NGO – Prime Trust

Date – 5-07-2023

Key Observations/context

- Today was a holiday on account of Bakrid, so the first half went into designing sessions for the rest of the project duration.
- Prime Trust needed some help with its academics and group 3 was assigned this task.
- The group took morning classes at Sabari Vidyashram and then took remedial classes for underprivileged children at three locations :
 - a. Shishu Bhavan
 - b. Janani Home for girls
 - c. Prime Trust

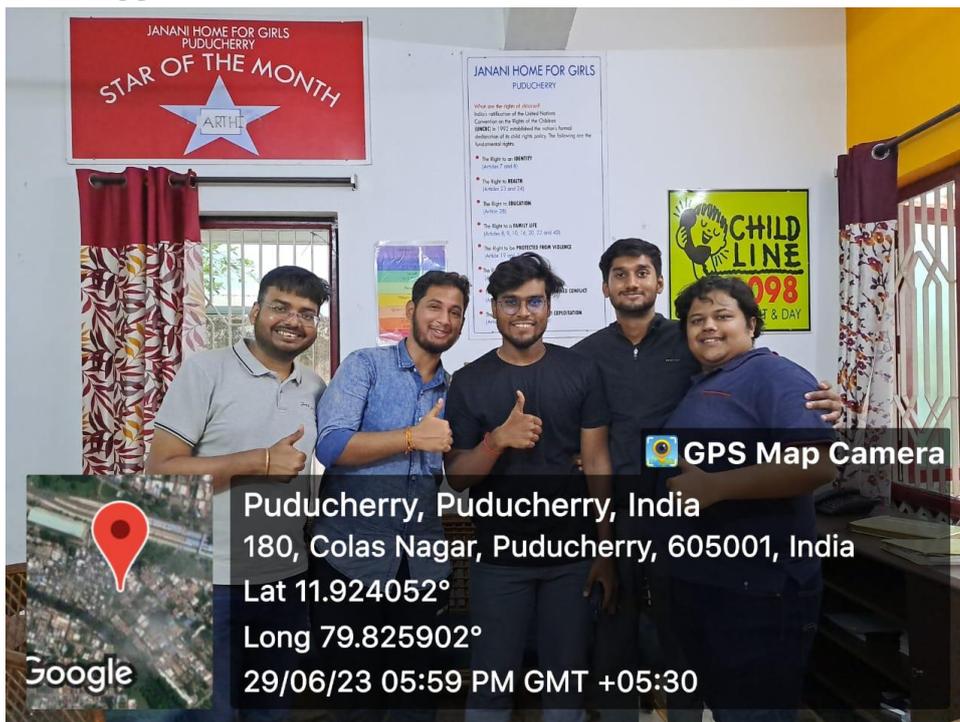

Our solution

- We took non-academic sessions for students at Sabari Vidyashram. The topics that were covered were social media, strategic thinking, communication and storytelling, computer skills, grooming and hygiene, career guidance classes.
- In the evening, our focus was more on academic learning where we helped children with their syllabus and taught them certain auxiliary skills such as photography and video making.

Take Away

- Children are resilient and pick up our teaching very quickly.
- I got a couple of ideas for tackling the language barriers that we face on a regular basis.
- Our team really understood the nature of our work and effectively executed their tasks.
