DISASTER RELIEF

About Us

01 Who We Are

CityHope Disaster Relief is a “Not for Profit” organisation registered in South Africa, but serving the world.

We aim to respond to disaster situations through the provision of relief aid and disaster recovery

02 What We Do

CityHope Disaster Relief employs a unique strategy that seeks to partner with businesses, organisations and churches to facilitate the collection, storage and disbursement of relief aid and disaster management services

03 Our Strategy

CityHope Disaster Relief was created for the purpose of facilitating an easy channel for individuals, churches, organisations and businesses to give to relief efforts on an ongoing basis, or as they feel called to do so.

As opposed to sending in teams to carry out the relief effort, we use a model where we work with local churches to provide relief to communities affected by disaster.

We have provided relief aid to:
Mozambique
Malawi
Somalia
South Africa

Approximate
number of
families that
received relief-aid
through CityHope

15,000

CityHope has responded **extensively** to
disasters in South Africa, which includes
flooding, fire disasters and xenophobic attacks

Some Facts & Figures

20

Number of disasters we have responded to.

100

Percentage of funding and donations that go directly to Humanitarian Aid.

48
