

STAND UP FOR GIRLS

Enhance Worldwide's three core programs – Kinship Care, Rising Autonomy, and Pathways Project – actively challenge the threats of child marriage, institutional care (orphanage), street violence, heightened risk for HIV/AIDS, and trafficking.

Globally, the most significant barriers to girls' education are disparate gender norms, gender-based violence, early pregnancy, and poverty. Child marriage remains a human rights and educational challenge in Ethiopia, where two in every five girls are married before their 18th birthday and one in five girls marries before the age of 15 (Girls Not Brides, 2018).

Enhance Worldwide's sustainable girls' education access and retention projects provide a continuum of care from primary school through university or technical school, and continue supporting graduates through their eventual employment. Thank you for providing a critical investment in girls' education and empowerment by donating to Enhance Worldwide!

**Ensuring access to
education & healthy
mentoring
relationships**

**Increasing health &
wellbeing through
Conditional Cash
Transfers (CCTs)**

**Teaching essential
life skills & critical
thinking skills**
