A NEW SCHOOL FOR FILANGUR

We are currently seeking funding for the Filangur Primary School Project, located in the Bale Zone. Your support will result in the Filangur Primary School becoming the center of its community. Over time, your investment will produce a generation of future leaders for whom education will always be associated with abundance, health and success.

ABOUT FILANGUR

With dirt floors, walls made of mud, and wooden logs standing in for chairs, the classroom environment in Filangur is far from conducive for learning. The open-air rooms lack basic learning necessities – students don't even have desks on which to write. Infrastructure is not the only hurdle students face: their educational materials are inadequate, and their teachers lack the skills to engage them in quality learning.

The local community is enthusiastic about making Filangur Primary School an important, accessible, and high-quality component of their commitment to education. Together, we will address key factors in establishing the best environment for students to thrive. From building latrines to training teachers, our combined efforts will impact generations to come.

2017 will mark Year 1 of this amazing project. Join us on our three-year investment in tangible results. We are so excited to collaborate in such an inspiring environment, and to help create the conditions for Filangur's substantial and sustainable success.

The total project budget is \$125,000, broken down as follows:

\$62,000

FOUR CLASSROOM
FURNISHING SCHOOL

\$6,000

TEACHER & COMMUNITY
PROFESSIONAL
TRAINING & LEADERSHIP
