

The Kids Sustainable School Challenge 2017-18 101 Finalists

Education is the solution: Awareness Campaigns

Sanwali Kumari 14 yrs. Child Id: 0603T022255

Sanwali's Education Awareness Campaign

Plan#921

School: Uchh Vidyalaya Girls High School, Kishanganj

The Big Problem: Lackof good quality education in her school. She asks a lot of questions in the class but is rarely satisfied by the response of her teachers.

The Solution: She believes in quality education. She wants to organize a big campaign wherein she will inform students and their parents about the importance of education in building up the future of the nation. She would distribute pamphlets and would stick posters in popular places to create awareness on the importance of education.

Astha Kumari 14 yrs. Child Id: 0207T056003

Education for Everyone Campaign

Plan#9990

School: Plus 2 Pariyojna Balika High School Korthu, Darbhanga

The Big Problem: Lack of good quality education. Good education is the basic right of every child. Astha is of the view that her school can improve on this aspect. She knows that the only way she can be successful in life is by learning through quality education.

The Solution: They are planning to organize different competitions such as essay competitions, science exhibitions, etc. which would make education more interesting. She believes that the kids would love this healthy competition and would learn from each other.

Pallavi Kumari 15 yrs. Child Id: 0305T018115

Capaign for Better Education!

Plan#263

School: Rameshwar Prasad High School, Bodh Gaya

The Big Problem: Pallavi believes that education is the only way we can develop our country. She does not like the way classes are being conducted in her school. She wants to improve it. So that students love coming to the school and get effective education.

The Solution: She wants to conduct an education awareness campaign. This campaign will impart knowledge among villagers and students about the importance of education. She also wants to educate every girl of her village. She will make a team of students who will take responsibility to teach every single person.

Khusboo Kumari 15 yrs. Child Id: 0305T018111

Education for Each Girl

Plan#314

School: Rameshwar Parsad Plus Two High School Belaganj, Bodh Gaya

The Big Problem: While going to her school Khusboo sees girls doing household chores. Helping in the fields. Most of the girls are not allowed to attend school. She believes education is the basic right of every individual and should be given to all.

The Solution: She is planning a big movement. She will go home-to-home to spread awareness among families to provide equal opportunities to their daughters and sons. She will tell them that even girls can make them as proud as their sons. She has prepared a skit for the same. Her campaign will have informative pamphlets, banners, posters, which will include the name of famous women personalities.

Ankita Kumari 14 yrs. Child Id: 0305T018114

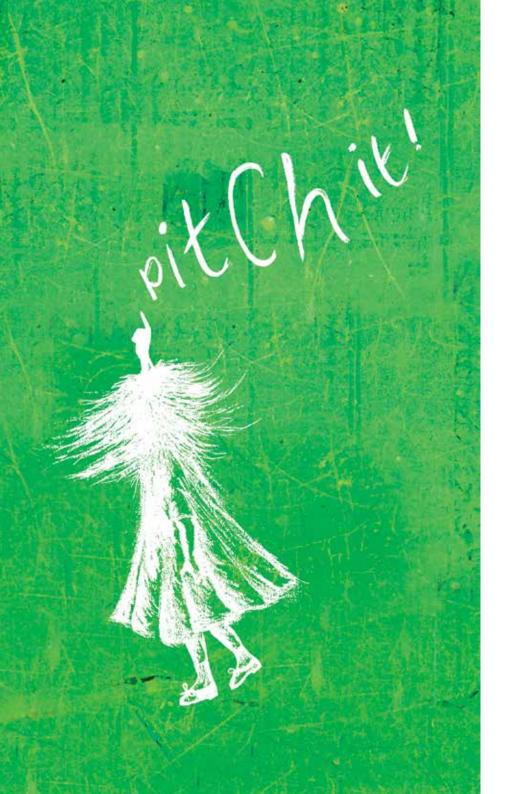

Ankita's Paper Pen Awareness Scheme

Plan#279

School: Rameshwar Prasad Plus 2 High School, Belaganj, Bodh Gaya

The Big Problem: Did you know that sports, education, competition, employment, entrepreneurship skills are all related? Ankita believes that if everyone is educated, they can choose any job or enterprise. She believes that everyone should play as it teaches us healthy competition. People in her village does not consider education important. As a result, students skip school and teachers don't teach efficiently.

The Solution: She wants to start awareness campaign in her school and village. Her slogan is "Pen is our weapon, and education is our right." Her campaign will also include a skit which will be performed in front of the Gram Sabha, Panchayats and various other locations.

More books, more knowledge:
Building Libraries

Sachin Kumar 13 yrs. Child Id: 0505T033172

Sachin's Knowledge Park Co.

Plan#791

School: Jannayak Karpuri Thakur, Khagaria

The Big Problem: Sachin's school does not have a library. He thinks that any school would be incomplete without a library. He likes to read and wants a robust library that can be used by him and everyone in his school.

The Solution: He will ask his friends and other village people to donate books. He will also raise funds for buying new books and for providing facilities such as desks, bulbs, fans, and shelves for keeping the books.

Sana Fatma 14 yrs. Child Id: 1105T022001

Sana and her Room Full Of Books

Plan#6115

School: Ayub Urdu Girls High School, Patna

The Big Problem: Sana's school has a library, but it doesn't have books. She likes to read and wants a robust library that can be used by her and everyone in her school.

The Solution: She has a solution. All kids and teachers should donate old books to the library. Sana, along with her friends, will create a group that will arrange the books according to the subject and manage and run the library, that will be open to all for reading.

Nitish Kumar Sahu 14 yrs. Child Id: 0215T097032

World of Words Library

Plan#1217

School: Nav Utkramit Uchh Vidyalaya, Darbhanga

The Big Problem: No library at school. As a 9th grader, Nitesh loves reading. He regularly reads newspaper, magazines and school books. However, he craves for more. He wants to read more and learn about the world around him. Their cuisines, their geography and their festivals. The list goes on. All of this could have been possible if his school had a library full of resources which were easily accessible.

The Solution: Nitesh has a plan. He would talk to his teachers. He would write a letter to the State Education Minister to provide the school with a library. He would also ask his friends, the people around and anyone possible to donate as many books as possible for the library so that the kids have the opportunity to learn as much as possible.

Shiwani Kumari 15 yrs. Child Id: 0301T004004

Shiwani & her Book Paradise Co.

Plan#1446

School: Project Shivbalak Balika Inter Vidyalaya, Bodh Gaya

The Big Problem: The absence of a library in her school. She wants to change that. She wants to get more and more books accessible to kids in her school.

The Solution: She plans on converting an extra room in her school into a library. Paint it with beautiful colours. She will ask teachers, students and others in the community to donate old books and raise funds for getting new books. She also plans on running an awareness campaign to tell everyone about the importance of books and reading.

Md. Inzmam14 yrs.
Child Id: 0305T015057

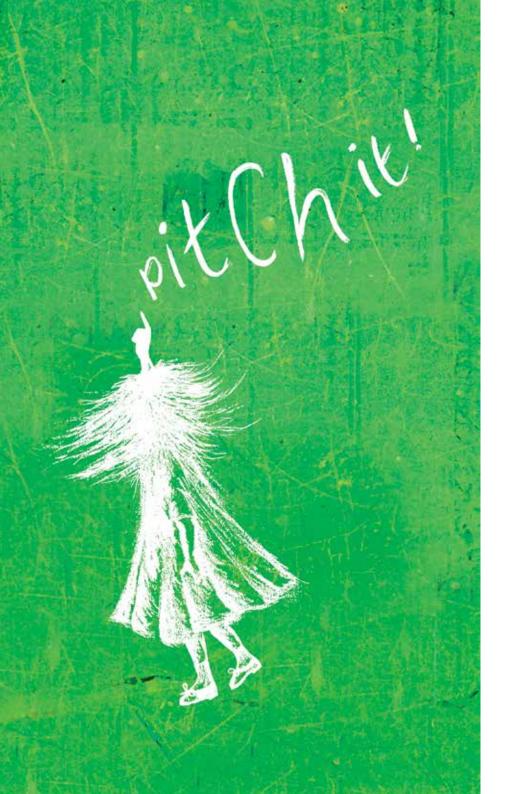

Students Reading Spaces!

Plan#1043

School: Plus Two High School Balapur, Bodh Gaya

The Big Problem: Lack of library in his school. He understands the importance of having a library in a student's life.

The Solution: He will be converting an un-used room into a library. He will ask his friends, teacher, villagers for donating books. Also, he will be raising funds for necessary furniture and books

Time to get smarter: Computer Labs

Swati Kumari 14 yrs. Child Id: 1105T028061

Swati's Computer Service

Plan#6105

School: Gandhi Arya Uchh Vidyalaya, Patna

The Big Problem: Computer. A one stop answer to all questions. Swati wants to learn, she wants her questions answered. But what good is an out of order computer. Swati's biggest problem is that the computer in her school doesn't work.

The Solution: She wants her school computer fixed, so that everyone can use it and learn more every day.

Saba Parween 13 yrs. Child Id: 0409T037202

Saba's Computer Lab

Plan#790

School: Uma Devi Mishra Girls High School, Katihar

The Big Problem: There is a need for a computer lab and the kids should have computer classes in the school.

The Solution: Awareness campaigns with the school teachers, the villagers and other related authorities to make them understand the need of computer education in the school and its importance in the future. To ensure that a computer lab is made in the school and that kids learn the basic computer skills.

Isha Khanam 14 yrs. Child Id: 0504T015030

Insa's Computer Company

Plan#2294

School: Jawahar Inter School Maheshkhut, Khagaria

The Big Problem: No access to computers. She and her classmates have always felt the need of a Computer lab. Insa knows that knowledge of computers is very important to attain success in this world.

The Solution: She will collect funds for a well-equipped computer lab. She will make a team of teachers and students who will take care of this lab. She will even ask her Head Master to allocate a period for computer studies.

Shivam Kumar 13 yrs. Child Id: 0504T028002

Shivam's Computer Lab

Plan#Y155

School: Utkramit Madhyamik Vidyalaya Mushkipur, Gogri, Khagaria

The Big Problem: No computers at school. Shivam sometimes think how much easier life would have been if he could also learn how to use computer. He wants a computer lab, so that kids in his school realize that computer is not as boring as they think of it to be.

The Solution: He wants funds for a computer lab and internet access. He believes that having computers will gradually increase the strength of his classroom.

Ravi Kumar 12 yrs. Child Id: 0506T044006

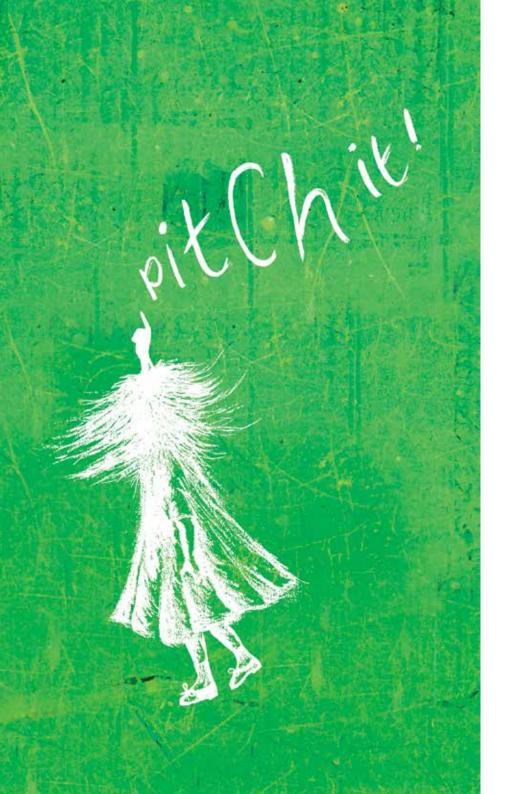

Ravi's Tech Solutions Co.

Plan#577

School: SN High School Sonbarsha Rahimpur, Khagaria

The Big Problem: Unavailability of computers in school. Ravi wants to learn, how to type and paint. He wants to know how to use the internet. He believes theoretical knowledge alone is not enough. Knowing how to use a computer is the most important skill every child should know these days.

The Solution: He wants to raise funds so that he can buy computers and required furniture for the lab. He, along with his friends, has also decided the rules they will be following in the lab. One among them is to use computers carefully.

Science lab for upcoming Scientists

Sargam Kumari 13 yrs. Child Id: 0912T062070

Sargam's Science Lab

Plan#2485

School: Plus Two Rajkiyekrit Harshit Uchh Vidyalaya, Samastipur

The Big Problem: Sargam's school doesn't have a science laboratory. How interesting and fun would it be if they could actually do some of the experiments that they read about. Sargam feels every school must have a science laboratory. She plans to make one for her school.

The Solution: She wants collect funds from friends, her community and teachers for fully functional science lab.

Deepak 14 yrs. Child Id: 0305T018009

Newton's Laboratory

Plan#387

School: Rameshwar Prasad Plus Two Uchh Vidyalaya, Beliganj, Bodh Gaya

The Big Problem: Deepak loves science. He wants to know it all. How does Sulphur smell? How does telescope work? Everything. But his school doesn't have a science lab. It's only once in a year his Science teacher takes him to some other school's science lab. He believes having a Science lab at his school will make him understand the subject more easily.

The Solution: He and his friends have listed down all the equipment required in a Science lab. He is only waiting for funds so that his school administration can buy all the laboratory equipment.

Sabreen14 yrs.
Child Id: 0206T049028

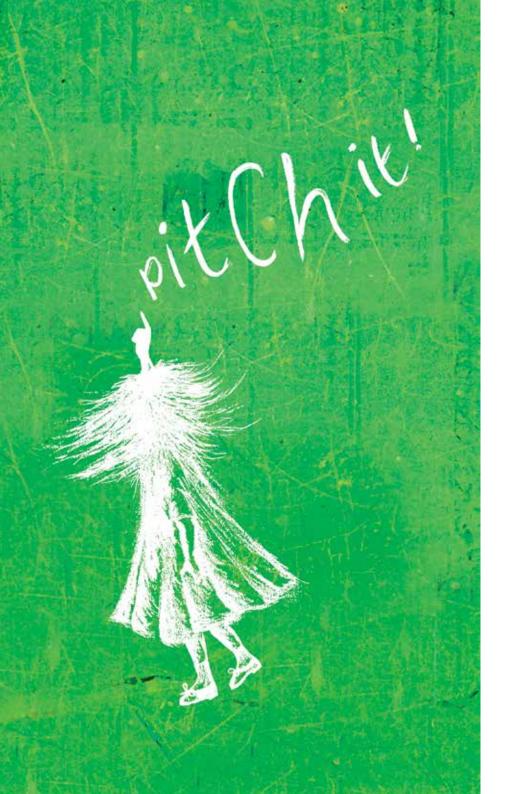

Sabreen's Laboratory

Plan#3733

School: Plus Two H.B Sogra Girls High School, Darbhanga

The Big Problem: No science laboratory in her school. Sabreen loves learning about science. She believes it is equally important to understand science as much as it is to read it. How interesting and fun would it be, if she is actually able to see how Sodium Chloride is made.

The Solution: She plans on collecting funds from friends, community members and teachers to make a fully functional science laboratory so that the kids can learn as well as have fun with different aspects of science.

Fixing Drainage Problem

Koyal Kumari 14 yrs. Child Id: 0603T022090

Koyal's School Drainage Company

Plan#4056

School: Plus Two Balika Uchh Vidyalaya Dumariya, Kishanganj

The Big Problem: Koyal's school does not have a proper drainage system. All of the water from toilet and hand pump gets stagnated in the playground. Mosquitoes. Bad smell. No place to play. These are few of her problems.

The Solution: She wants a proper drainage system in her school so that they have an adequate space to play. They have talked to the Principal about the same and want funds to implement the plan.

Manisha Kumari 13 yrs. Child Id: 0113K069

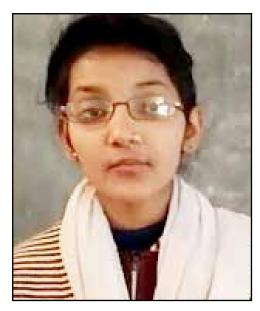

Manisha's Drainage Co.

Plan#3958

School: K.G.B.V. Sabor, Bhagalpur

The Big Problem: Poor drainage system. There is water stagnation in Manisha's school, which becomes a breeding ground for mosquitoes and other insects, which leads to diseases that make students sick.

The Solution: Proper drainage to be created that redirects water inside the soil.

Rupika Kumari 14 yrs. Child Id: 1006T057021

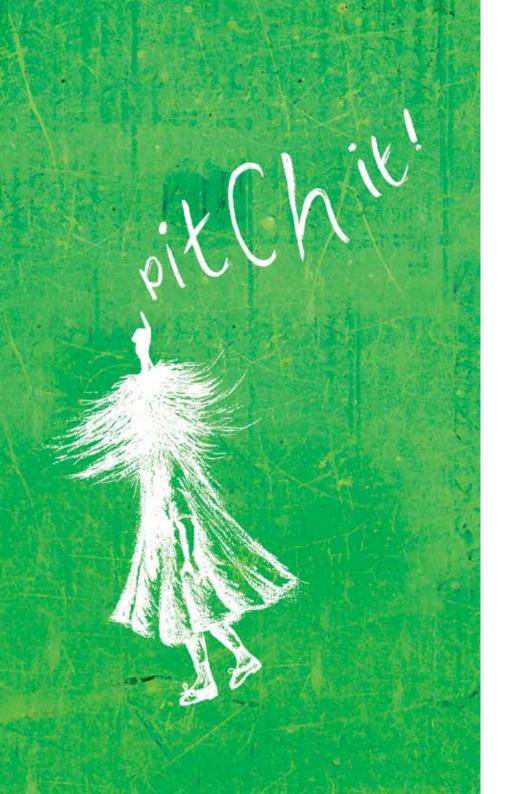

Rupika's Water Drainage Service

Plan#3221

School: Upgraded High School Phulbariya, West Champaran

The Big Problem: There is water stagnation in Rupika's school, which becomes a breeding ground for mosquitoes and other insects. This is the reason many students keep falling sick.

The Solution: A central pit can be created with channels which redirect water inside the soil.

Organic Honey Entreprise

Akash Kumar 14 yrs. Child Id: 0306T021287

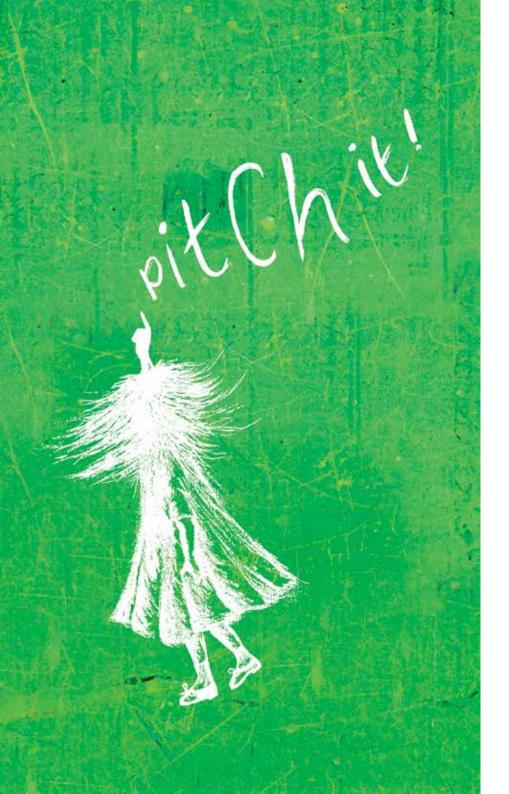

Akash's Organic Honey Co.

Plan#6

School: Rajkiyakrit Plus Two Uchh Madhyamik Vidyalaya, Bodh Gaya

The Big Problem: Not having a garden at school. His school doesn't have a garden, and he knows the importance of both greenery and organic gardens. He thinks that an organic garden will not only act as his bit in maintaining greenery but will also help everyone in many ways. What will an organic garden give? Nutritious veggies, pleasant flowers and what else?

The Solution: Something that is small but still plays a crucial role in transforming the environment. The honeybee. Akash wants to be friend the honeybee so that he may get delicious homemade honey. Yes! Akash wants to be an organic honey entrepreneur. So that he can deliver organic honey to his friends and villagers. All he is waiting for is funds so that he can buy those magical blue boxes.

Fighting pollution: Planting more trees

Renu Kumari 14 yrs. Child Id: 0408T023266

Clean Environment Awareness Campaign

Plan#1130

School: Adhin Lal Uchh Vidyalaya Sonauli, Katihar

The Big Problem: Pollution! The environment around the school and the village is polluted as there is lack of trees in the area.

The Solution: The only way to control pollution is through plantation of trees. She plans to plant as many trees as possible. Once the trees are planted, she, along with a team, would ensure that the trees are taken care of, regularly.

Komal Kumari 13 yrs. Child Id: 0505T038019

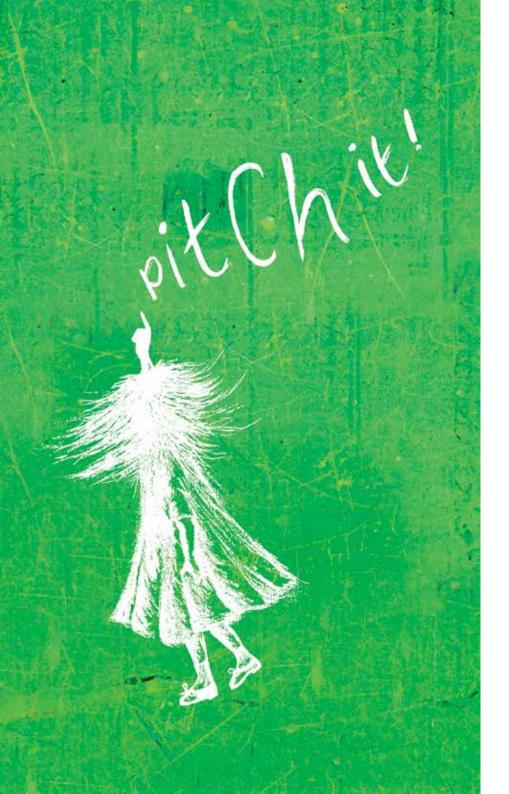

Komal's Go Green Campaign

Plan#207

School: Sarvodaya Mahaveer Inter Vidyalaya Bela Simri, Khagaria

The Big Problem: Why are summers so hot? Why is there no rain during the monsoons? Why are winters hotter than before? Komal has been thinking about all of these questions for a long time. She thought a lot, read a lot and realized that the biggest problem, not just in her school but the world, is pollution. Temperature of the earth is rising and pollution is the cause.

The Solution: Trees. Neem Trees. Banyan Trees. Big Trees. Small Trees. She wants to plant trees in and around her school and community. She also plans to do an awareness campaign to encourage people to use biodegradable things and avoid plastic. Posters. Flyers. Banners. Skit. Her campaign will have it all.

Let the children be in schools:
Build them loos

Hua Kurm & Divya Kumari 14 yrs. Child Id: 0408T027026, 0408T027019

Hua's Clean Toilet Scheme

Plan#

School: Dukhi Ram Uchh Vidyalaya Chandpur, Katihar

The Big Problem: Lack of toilets. Without a toilet in the school, the girls have to go outside, to the fields for pee and poo. And, that is both unhygienic and unsafe.

The Solution: To build toilets in the school with adequate facilities such as water, soap and dustbins.

Vibhuti 14 yrs.

Child Id: 0414T056021

Vibhuti's Toilet Now Co.

Plan#2265

School: Munshi Lal Mandal Uchh Vidyalaya Bastaul, Katihar

The Big Problem: Lack of toilets in the school is one of the primary problems. The toilets are not usable as they are completely broken.

The Solution: Build new toilets in the school with adequate facilities such as water and handwash. The kids would ensure that the toilets are cleaned regularly. She would try to convince the principal of the school to write a letter to the concerned authorities to look into the matter and collect funds for the same.

Palak Kumari 15 yrs. Child Id: 0403T009231

Palak's Clean Toilet Plan

Plan#2548

School: Plus Two Madhyamik Vidyalaya Sujapur, Katihar

The Big Problem: No TOILETS! The biggest problem in the school is that there are no toilets, which is leading to the problem of open defecation near the school. This is a huge problem especially for girls. They have to rush back to their homes to use the loo.

The Solution: New toilets need to be built. I, along with others, would write to the principal of our school to manage funds to build toilets. If not, would try to acquire funds for the school, so that a toilet can be built.

Sangeeta Kumari 14 yrs. Child Id: 1202K089

Sangeeta's Toilet Solution

Plan#Z-025

School: Madhya Vidyalaya New Police Line Aara, Bhojpur

The Big Problem: Many kids, especially girls, in Sangeeta's school miss their classes just because there is no toilet in her school.

The Solution: An indigenous method, consisting of a septic tank and a proper toilet can be implemented in her school. Two sets of toilets-one for girls and one for boys need to be constructed.

Anupriya 13 yrs. Child Id: 0905K067

Anupriya's Clean Toilet Solution

Plan#9047

School: Kasturba Gandhi Balika Vidyalaya, Samastipur

The Big Problem: Anupriya's school doesn't have toilets. Attendance is very low because of it and kids fall sick often.

The Solution: She wants to get toilets constructed in her school so that students don't fall sick anymore and aren't missing the school.

Anushka Kumari 13 yrs. Child Id: 0912T062029

Anushka's Toilet Management Service

Plan#2412

School: Plus Two Rajkiyekrit Harshit Uchh Vidyalaya, Samastipur

The Big Problem: Lack of toilets, as a result the kids either leave school early or don't come to school at all.

The Solution: Anushka wants to collect funds to construct toilets in her school, one for girls and one for boys.

Beauti Kumari 15 yrs. Child Id: 0323T091169

Get a Toilet!

Plan#75

School: Sehdev Uchh Vidyalaya, Kamalpur Tikari, Bodh Gaya

The Big Problem: No toilets at school. Beauti and her friend loved Going to School's 'Toilet Story' book. They can relate to Rashmee's character, as they face the same problem. Most of Beauti's friends don't come to school and those who come prefer going back home after only half day. Beauti has to go to the fields for pee and poo, which is not safe.

The Solution: Beauti wants two toilets for her school, for boys and girls. She will make a team and distribute the responsibility among the students, who will make sure that the toilets are always clean and well equipped.

Harsh Vardhan Kumar 14 yrs. Child Id: 0803T027150

Let's Get a Loo Scheme

Plan#3331

School: Uchh Vidyalaya Tulsi Ghat, Nalanda

The Big Problem: When Harsh Vardhan Kumar picked up Going to School Kids Sustainable School Challenge, he mentioned insufficient number of toilets as one his biggest problems. He does not prefer to use school's toilet because of its poor condition. Broken doors. No water tap. No staff for cleanliness. Harsh Vardhan doesn't like that his female schoolmates have to go to the fields for loo, as it is not safe for them.

The Solution: Harsh Vardhan's plan starts with an awareness campaign, where he will talk about the ill effects of open defecation. He will solve this problem by raising funds for more toilets and basic facilities.

Saba Afreen 14 yrs. Child Id: 0212T079098

Saba's Clean Loo Co.

Plan#2949

School: Plus Two Rajkiyekrat Uchh Vidyalaya, Darbhanga

The Big Problem: The washrooms in the school are at a poor state and kids avoid using the washrooms. Broken doors. No water tap. No staff to maintain the toilets. This has led to kids missing out on school.

The Solution: Saba plans on starting an awareness campaign on the ill effects of open defecation so that people become aware and use toilets. She would also try to convince the villagers to help her in fixing broken doors and try to procure funds from different sources to have proper water facility in toilet, and to maintain the toilets.

Soni Kumari 14 yrs. Child Id: 0212T078046

Soni's Clean Toilet Service

Plan#2660

School: Plus 2 Ucch Vidyalaya Pindrach Kevati, Darbhanga

The Big Problem: Toilets! Lack of toilets is one of the primary reasons of decreasing attendance in her school. In a school with 1500 kids, there is just one toilet which is being used both by teachers and students. The dirty toilet makes it impossible for her to use it.

The Solution: Build adequate number of toilets. She believes that there should be proper sanitation facilities in the school with adequate water to keep the toilet clean and wash hands.

Shivani Kumari 14 yrs. Child Id: 0324T098151

Shivani's Hygiene Drive

Plan#1787

School: Satyawanti High School, Kari Sowa, Bodh Gaya

The Big Problem: Shivani's school has a toilet, but still nobody uses it as there is no roof. The boundary wall of the toilet is also very small that makes it unsafe for girls to use them.

The Solution: She wants to collect funds from her teachers, community and others to construct toilets in her school and make groups in school to make sure that they are always well equipped and managed.

Md Junaid Ashfaque 15 yrs.

Junaid's Toilet scheme

Plan#SEL-1

School: Shyam Sundar Vidya Niketan School, Bhagalpur

The Big Problem: No clean and safe toilet. Junaid, a 10th Grader who picked up Going to School's Kids Sustainable School Challenge booklet lying in his school, completed it, in the hope of solving the biggest problem in his school, Toilets. His schools has toilet, semiconstructed, unclean and unusable.

The Solution: He wants to get the toilets repaired and cleaned to make sure that kids don't miss school because of lack of a clean and safe toilet.

Puja Kumari 15 yrs. Child Id: 0323T087074

Puja's Clean Toilet Drive

Plan#1080

School: Plus Two Balika Uchh Vidyalaya Tikari, Bodh Gaya

The Big Problem: Healthy mind lives in a healthy body. Puja believes in this saying. She studies in an all girl's school. Her school's bathroom is in a terrible condition. The seat is not clean, drainage is chocked, tap is not working properly. All of these make it impossible for girls to attend school regularly.

The Solution: She wants her toilet to have a proper sanitation facilities and running water to keep the toilet clean and for washing. She also plans to spread awareness about toilet etiquettes to her fellow students so that they don't fall sick.

Vishal Kumar 13 yrs. Child Id: 0108T058117

Vishal's Clean Toilet Co.

Plan#4657

School: Rajkiya Inter Mediate District School, Bhagalpur

The Big Problem: Dirty Toilets. They stink. No one ever cleans them.

Hence, no one can use them.

The Solution: Vishal wants to collect funds to first clean the toilets in his school and fix them. Then he wants to make a committee with his friends which will manage and maintain the cleanliness in the toilets. He also wants to aware kids and people in his community regarding the importance of a clean toilet and it's impact on one's health.

Sourav Kumar 15 yrs. Child Id: 0303T009029

Sourav's Clean Toilet Scheme

Plan#755

School: Utkramit Plus Two Vidyalaya Bhaluhar, Bodh Gaya

The Big Problem: Toilets. Lack of toilets is one of the primary reasons of decreasing attendance in Sourav's school. The existing toilet does not have a roof, which make it un-safe for girls. There is dirt and poop everywhere, which results in flies spreading diseases and as a result, many kids fall sick.

The Solution: Build adequate number of toilets. He believes that there should be proper sanitation facilities in the school.

Hemlata Kumari 13 yrs. Child Id: 0106T040219

Hemlata's Safe Toilet Service

Plan#3433

School: Rajkiyakrit Uchh Vidyalaya, Bhagalpur

The Big Problem: Hemlata loves coming to school. Studying with her friends together. Playing together. What saddens her the most is that her school doesn't have a toilet. Everyday most of her friends, sometimes even she, go back home in the middle of the day to relieve themselves, sadly to not return back to school for the day. That results in low attendance, missing classes and not so good grades.

The Solution: She would like to collect funds from her teachers, community and others to construct toilets in her school and make groups in school to make sure that they are always well equipped and managed.

Ankesh13 yrs.
Child Id: 0305T017057

Ankesh Sulabh Service

Plan#390

School: Janta Uchh Vidyalaya Koriyavan, Bodh Gaya

The Big Problem: Ankesh knew what he will be proposing as the biggest problem when he picked Kids Sustainable School Challenge. It was the insufficient number of toilets. There is only one toilet at school. It is because of this that many of them go home after lunch.

The Solution: Ankesh wants to collect funds for making separate toilets for boys and girls. He will also make a team for the maintenance of those toilets.

Varsha Kumari 14 yrs. Child Id: 0307T030052

Swach Shauch!

Plan#272

School: Plus Two Uchh Vidyalaya, Navsthapit, Bodh Gaya

The Big Problem: For how long can you hold nature's call? Varsha has to control it till her school time. She knows it is not right. Most of her friends prefer to go to coaching classes and not to school because of the exact same reason. Coaching institute has toilets.

The Solution: She and her friends have decided a place in school for building a toilet. She wants that the toilet should have proper water facility, a mug and soap.

Rifat Bushra
14 yrs.
Child Id: 0409T029005

Rifta's Toilet Management Scheme

Plan#328

School: Plus Two Gandhi High School, New Colony, Katihar

The Big Problem: Because of lack of water facility in the toilet, it remains dirty. It is unusable most of the times. After using the toilets, there is no place to wash the hands.

The Solution: There are 2 solutions to the problem. a hand-pump near the toilet so that the kids have access to water to clean the toilet and their hands. The other solution is to provide running water to the toilets so that the toilets can be flushed immediately after use.

Anisha Kumari 13 yrs. Child Id: 0505T041022

Anisha's Toilet Management Company

Plan#4524

School: Utkramit Uchh Vidyalaya Chandranagar, Khagaria

The Big Problem: Anisha's school has toilets, but without doors. These toilets are not better than the open fields. She has to ask her friend to guard while she uses the toilet.

The Solution: She wants to fix the toilet door, so that girls can go freely. She will also make a team which will manage and maintain the cleanliness in the toilets.

Annu Kumari 13 yrs. Child Id: 0505T036083

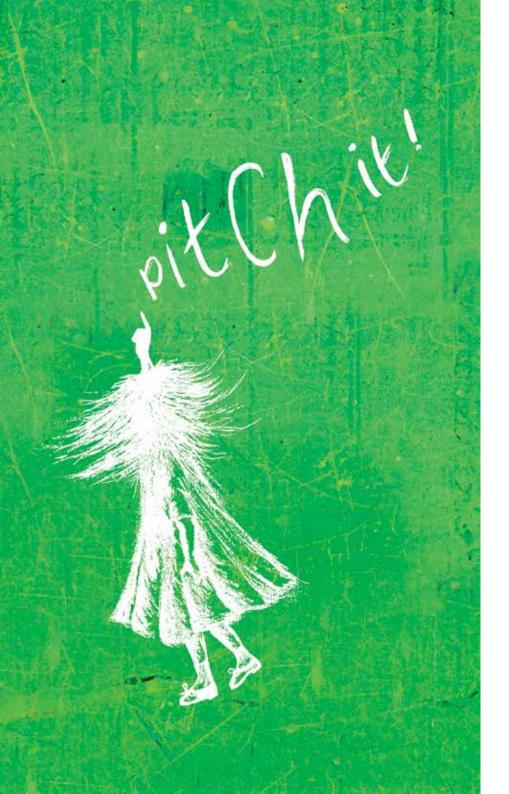

Annu's 'Clean India, Healthy India' Campaign

Plan#4020

School: R.H.S.R Sanaspur, Khagaria

The Big Problem: Toilets in Annu's school are very dirty. They stink. No one ever cleans them. Hence, no one can use them. When she wants to go to the loo, she prefers to go back home and skip school.

The Solution: She wants to collect funds to first clean the toilets in her school and fix them. She has a plan. She will make four teams with 5 students each. Each team will take care of cleanliness for a week.

No power problems: Going Solar

Aditya Kumar 14 yrs. Child Id: 0403T010025

Aditya's Solar Panel System

Plan#813

School: S.J.N.C.High School Bareta, Katihar

The Big Problem: Lack of electricity in the school most of the times. Because of this, the kids are not able to use the available computers.

The Solution: There is a need to install solar panels in the school. The computers would then be useful. In summers, fans would be functional. He would make a team, identify the products needed, make a budget and then write to the principal for support. If the principal cannot take it forward, they would tap other sources which they can to arrange the funds.

Anjali Kumari 13 yrs. Child Id: 100K091

Anjali's Electricity Co.

Plan#7861

School: Kasturba Gandhi Balika Vidyalaya, Danapur, Patna

The Big Problem: There is no electricity in Anjali's school. The summers are hot. There are no fans and the classrooms are dingy with no light.

The Solution: Her plan is to set up solar panels on the roof of her school and generate electricity. It is the most sustainable and environment friendly way to generate electricity.

Amit Kumar Sharma
15 yrs.
Child Id: 0403T008002

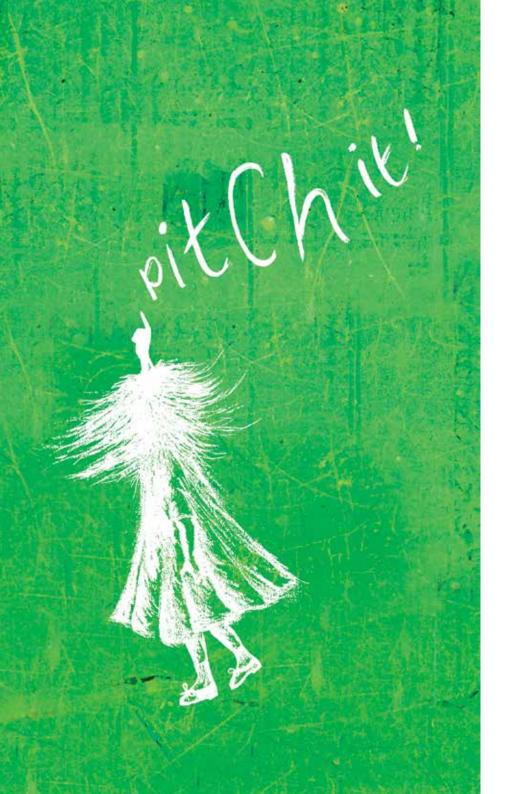

Amit's Electricity Solution

Plan#1042

School: Plus 2 Jageswar Uchh Vidyalaya Gurubazar, Katihar

The Big Problem: Lack of electricity in the school most of the times. Because of this, the labs in the school are almost non-functional and hence, the kids coming to the school are constantly decreasing.

The Solution: The kid, along with other kids, has written a letter to the principal of the school with a request to get the electricity situation fixed. However, this is yet to be done. He feels that the school needs to have electricity through solar panels so that the dependency on other sources is reduced. The school, then would have functional labs and the kids would attend the school regularly.

Clean drinking water: The basic need

Kumkum Kumari Chaurasiya 14 yrs. Child Id: 1105T027020

Kumkum Safe Water Campaign.

Plan#5926

School: Dayanand Kanya Uchh Madhyamik Vidyalaya, Patna

The Big Problem: Kumkum sees a lot of water being wasted. Filled in pits, breeding mosquitos, particularly when it rains. She also notices a lot of water being wasted while washing hands, utensils and clothes. She wants to save water. Re-use it, and recycle it.

The Solution: She wants to set up a pit or a tank where she can collect waste water and convert it into water that can be reused for other purposes like irrigation of gardens or replenishing groundwater.

Nisha Kumari 13 yrs. Child Id: 0814T088005

Nisha's Clean Water Scheme

Plan#3858

School: D.P. Rai Uchh Madhyamik Vidyalaya, Nalanda

The Big Problem: Water in Nisha's School is contaminated and has high iron content. She hardly drinks water in school. If she is extremely thirsty, she prefers to go to her home, when due to which she misses some of her classes. Isn't it hard to choose, when you have education and thirst for water in option?

The Solution: She wants funds for installation of new water pump and RO system in her school. She will make a team who will make sure that no one misuses drinking water.

Pallavi Kumari 13 yrs. Child Id: 0807T053013

Pallavi's Pure Water Service

Plan#2787

School: Ramchandra Prasad Gupta Uchh Vidyalaya, Nalanda

The Big Problem: The biggest problem in her school is lack of drinking water. The water available in the school is high in iron content. Due to which most of the students, and even teachers fall sick. They have to skip school. No School means no education. And she knows how important it is to study.

The Solution: Riya wants an RO System to be installed in her school so that all the kids in her school have access to clean drinking water. She'll be putting up posters about the importance of clean water in each class to spread awareness.

Nitin Kumari 14 yrs. Child Id: 0814T086039

Nitin's Swach Jal Yojna

Plan#3794

School: Rajkiyakrit Plus Two Uchh Vidyalaya Beldar, Nalanda

The Big Problem: When Going To School asked Neeti about her biggest problem, she undoubtedly chose unavailability of pure water. Mentioning the same in her Kids Sustainable School Challenge Booklet, she talks about how most of her friends have suffered from typhoid because of contaminated water. Most of her friends skip school after lunch as they feel thirsty and school doesn't have any proper source of drinking water.

The Solution: She has a plan which she had discussed with her teachers and principal. She will raise funds for an RO water system and a handpump which she will get fixed with the help of a local plumber. She will also make sure that the waste water goes to the organic garden so that they may flourish

Chandni Kumari 14 yrs. Child Id: 0215T099009

Chandni's Water Pump Co.

Plan#3230

School: Uttkramit Uchh Vidyalaya, Darbhanga

The Big Problem: Lack of drinking water in the school. Most of the times, the kids in the school have to stay thirsty as the school does not have water facilities for kids to drink water from.

The Solution: She has already discussed the problem of the lack of drinking water with her teachers and principal. She plans on raising funds for a water pump in the school and get the local plumber to fix the same.

Anuradha Jaisawal 14 yrs. Child Id: 0807T053243

Anuradha's Plan to Purify Paani

Plan#2769

School: Ramchandra Prasad Gupta Balika Uchh Vidyalaya, Nalanda

The Big Problem: Through her business plan, Anuradha pitched the issue of unavailability of clean drinking water in her school. Water pump is worn out and provides contaminated water due to which most of her schoolmates have got ill.

The Solution: Anuradha plans for the installation of an RO water filter and two water pumps. For required funds, she plans on discussing this problem with her teachers and village panchayat.

Anuradha Kumari 13 yrs. Child Id: 0811T075077

Anuradha's Water Filter Facilities

Plan#151

School: Plus Two Vidyalaya Sargaon, Nalanda

The Big Problem: 9th Grader Anushka loves reading Going to School's books. When we asked her about her biggest problem, She knew what it was. Unavailability of water in the school. She has to walk a milestone if she's thirsty in the middle of the school. She knows that strength of the school will gradually increase if school will have water facility.

The Solution: She wants water filter in her school. She and her friends have collected some money for it but she knows that will not be enough.

Anjali Kumari 14 yrs.

Child Id: 0212T078025

Anjali Filter Water Service

Plan#2756

School: Plus Two Rajkiyekrat Uchh Vidyalaya, Darbhanga

The Big Problem: Non-availability of clean drinking water in the school. In a school with more than 1000 students, there is only one hand pump. The hand pump is old and provides contaminated water because of which most of her schoolmates fall ill.

The Solution: There is a need for RO water purifier and two hand pumps. This would help the kids in maintaining their health which would lead to increased attendance.

Roshni Khatun 14 yrs. Child Id: 0409T029006

Roshni's Clean and Clear Water Co.

Plan#327

School: Gandhi Uchh Vidyalaya New Colony, Katihar

The Big Problem: Non-availability of clean drinking water in the school. There is only one hand pump in the school which provides contaminated water. This is one of the primary reasons why the kids in her school fall ill.

The Solution: She needs funds to have water filter in the school. She, along with her classmates and teachers, would run a campaign to raise funds to get a water filter for their school and install it. This would lead to increased attendance as lesser number of children would fall ill.

Raja Kumar Shah 15 yrs. Child Id: 0212T083063

Student's Clean Water Service

Plan#1201

School: Utkramit Madhyamik Vidyalaya Lalganj, Darbhanga

The Big Problem: Imagine yourself sitting in a class. You feel thirsty, BUT you can't drink water. Not that there is no water in the school, but the water available is not fit for drinking. Raja faces this problem each and every day in school. He brings water from his home; but for a long stretch of 6 hours in the school, a bottle is not enough.

The Solution: Raja does not want to wait for someone else to solve this problem. He has a plan and is determined to solve it himself. He would do an advocacy campaign on the need of clean drinking water and would try to acquire the funds from his classmates and teachers to buy a new water pump, purifier and dispenser. He would make sure that students avoid using drinkable water in the toilet. You know what would make his plan a successful one in the long run? His will of not only installing the water purifier but also, taking up the responsibility of getting it serviced at regular intervals.

Runi Kumari 15 yrs. Child Id: 0323T087014

Clean Drinking Water Scheme

Plan#1418

School: Plus Two Balika Uchh Vidyalaya, Bodh Gaya

The Big Problem: There is no clean drinking water in Runi's school, which leads to kids often falling sick. Many of her friends have not attended classes since months as they fell severely sick by drinking contaminated water.

The Solution: Water Filtration system that purifies iron, bacteria and other contaminants from the groundwater can be installed.

Ramkumar 14 yrs. Child Id: 0106T038001

Ram's Water For All Service

Plan#3448

School: Utkramit Ucch Vidyalaya, Bhagalpur

The Big Problem: There is no clean drinking water in Ram's school, which leads to kids often falling sick.

The Solution: Water Filtration system, which removes iron, bacteria and other contaminants from the groundwater, can be installed.

Sapna Kumari 14 yrs. Child Id: 0323T091166

Clean Water Solution

Plan#79

School: Sehdev Uchh Vidyalaya, Kamalpur Tikari, Bodh Gaya

The Big Problem: Sapna does not have drinking water facility in her school. She brings bottle from her home. But it is hard to survive with small water bottles during hot summers days. Most of her friends skip school for the same reason.

The Solution: She has made a team and started collecting money. But she thinks it won't be enough as the hand pump and motor are very expensive.

Sonam Kumari 14 yrs. Child Id: 0211T072021

Sonam's Swach Jal Yojna

Plan#1464

School: RS Girls High School, Darbhanga

The Big Problem: Sonam always wondered about the empty seats in the classroom. She also wondered the reasons for kids missing out classes in her school because of different health issues. She tried to find out the reasons for the empty classrooms and health issues of the kids and found that this is because of the lack of drinking water in the school. She believes that clean water is the basic necessity for everyone and it should be fulfilled.

The Solution: She came up with a plan to solve the problem. She will create awareness about the need of clean drinking water among the kids and would try to collect funds from any source available to install water pumps in her school. She will also sensitize the people on the need for water conservation.

Riya Chakarvarti 14 yrs.

Child Id: 0603T022226

Riya's Clean Water Solution

Plan#2122

School: Plus 2 Balika Uchh Vidyalaya, Kishanganj

The Big Problem: Lack of drinking water. The water available in the school is high on iron content. This leads to lower attendance and different health related problems.

The Solution: Riya wants a water filter to be installed in her school so that all the kids have access to clean drinking water. She'll be putting posters about the importance of clean water in each class for creating awareness.

Md. Farog Bilal 15 yrs. Child Id: 0606T057136

Safe Drinking Water Scheme

Plan#1015

School: Plus Two High School Poarwali, Kishanganj

The Big Problem: Empty classrooms in the school because of poor health of the children. This is because of lack of clean drinking water in the school. The water is high on iron content and is not safe for drinking.

The Solution: He plans to collect funds from any sources available to install water pumps in his school so that the kids have an access to clean drinking water. Through awareness campaigns, he will also sensitize the people on the need for water conservation.

Uma Kumari 14 yrs. Child Id: 0605T046121

Pure Water Squad

Plan#919

School: Uchh Vidyalaya Azadnagar, Kishanganj

The Big Problem: Unavailability of clean drinking water at school. The water at school is unfit for drinking purpose. The kids fall sick and miss their classes.

The Solution: Uma believes in team work. She will make a team of four, which then will create awareness campaigns to sensitize people on the need to save water. She will raise funds for a water pump and purifier and get them installed.

Ruchi Kumari 14 yrs.

Child Id: 0912T066094

Ruchi's Clean Drinking Water Co.

Plan#2481

School: Madhya Ram Raksha Uchh Vidyalaya, Samastipur

The Big Problem: There is no clean drinking water in her school.

The Solution: She wants to collect money by doing skits, competitions, and then buy a Water Purifier for the school.

Jenish Bharti 14 yrs. Child Id: 0412T050124

Jenish's Water 100% Clean

Plan#1154

School: Panna Lal Surendra Narayan Balika Uchh Vidyalaya, Katihar

The Big Problem: Non-availability of drinking water. There is a well in the school, but it is not safe to drink water directly from the well. many kids have fallen sick after drinking that water.

The Solution: They need to install water purifier in the school so that kids have an access to clean drinking water. She would write a letter to the principal asking him to install a water purifier. If that does not happen, she along with other kids, would appeal to the Block Head to come and visit the school to see the dire state and request him/her to help the out. If a water purifier is installed, there would be increased attendance.

Dipak 14 yrs. Child Id: 0407T021141

Dipak's Water Plan

Plan#2268

School: Uchh Vidyalaya Hasanganj, Katihar

The Big Problem: Non-availability of clean drinking water. Further, the environment is polluted as there is a lack of trees in the campus.

The Solution: The school needs a water purifier so that the kids have access to clean drinking water and their health is maintained. Also, plants would be planted in the school.

Aftab Alam
15 yrs.
Child Id: 0403T010076

Clean Water for All Co.

Plan#3239

School: Ekshu Narayan Chaudhary High School, Katihar

The Big Problem: The primary problem in the school is non-availability of clean drinking water. This is affecting the number of children attending the school.

The Solution: There is a need to make everyone understand the need for clean drinking water in the school. He would urge the principal, the teachers and the villagers to manage funds for the school so that new water purifier can be fitted in the school and everyone can have clean drinking water to drink in the school.

Nikita Kumari 13 yrs. Child Id: 0505T041013

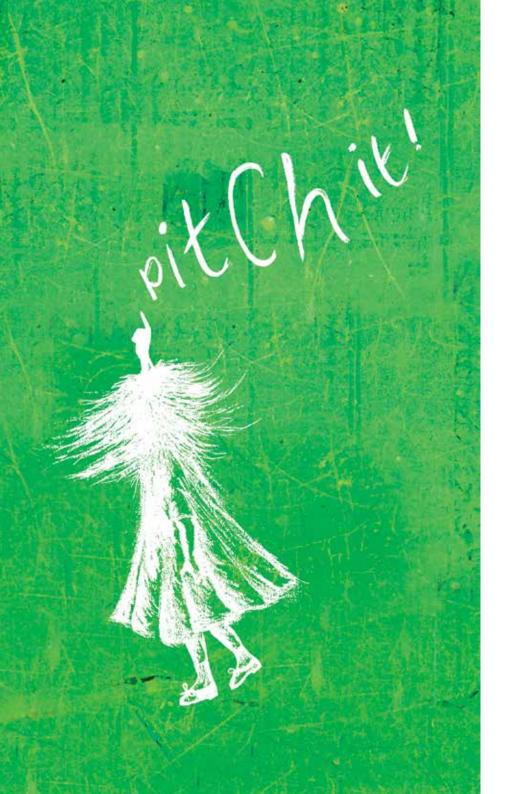

Nikita's Clean Water Service

Plan#225

School: Utkramit Rajkiya High School Chander Nagar, Khagaria

The Big Problem: Nikita does not drink water in school. Why? Because the hand pump in her school is old and rusty. The water is dirty and tastes bad. She wants clean water for drinking.

The Solution: She is raising funds for a water purifier and a water pump. She will make a team to maintain the purifier.

A safe school means higher attendance: Build boundary walls

Swati Kumari 14 yrs. Child Id: 0704T017021

Swati's Safe School

Plan#Y174

School: Rajkiyekrit Uchh Madhyamik Vidyalaya, Muzaffarpur

The Big Problem: Swati's biggest problem is the lack of proper infrastructure in her school. There are buildings and toilets, but what distinguishes the school compound from the surrounding area? Nothing. No boundary wall.

The Solution: She wants to make her school safe and secure from outsiders and create a safe place to play for herself and her friends. She wants to construct a boundary wall.

Priya Kumari 15 yrs. Child Id: 0703T014006

Priya's Safety Squad

Plan#7840

School: Rajkrit Interstate Uchhtam Madhyamik Vidyalaya Ansar, Muzaffarpur

The Big Problem: Priya wants a safe space to study and play. Her school doesn't have a boundary wall and hence a lot of unauthorized vehicles park near the school building.

The Solution: Priya wants to collect funds to get a boundary wall constructed to make her school safe for herself and others.

- 1. Shireen Fatima
- 2. Arshadi kahtoon
- 3. Rajni Parween
- 4. Chahat Parween

15 yrs.

Child Id:

- 1. 0603T024062
- 2. 0603T024232
- 3. 0603T024240
- 4. 0603T024048

Anti-Eve Teasing Squad.

Plan#720

School: Plus Two National High School, Kishanganj

The Big Problem: Shireen, Fatima, Arshadi, Rajni and Chahat take the same route to school. All of them faces the severe problem of eve teasing. Boys outside their school create nuisance and tease them. This is the primary reason for the girls to stay at home rather than coming to school.

The Solution: One needs to feel secured in one's own school and surroundings. This team of girls wants their school to be a safe and secure space to study. They would talk to their teachers and do awareness campaigns on the need for education of girls and for a secure space in the village so that the problems of eve-teasing would not occur. They will also put up boards with helpline numbers of police, child-line, etc.

Manisha Kumari, 14 yrs. and Anisha Kumari, 14 yrs. Child Id: 0603T022250

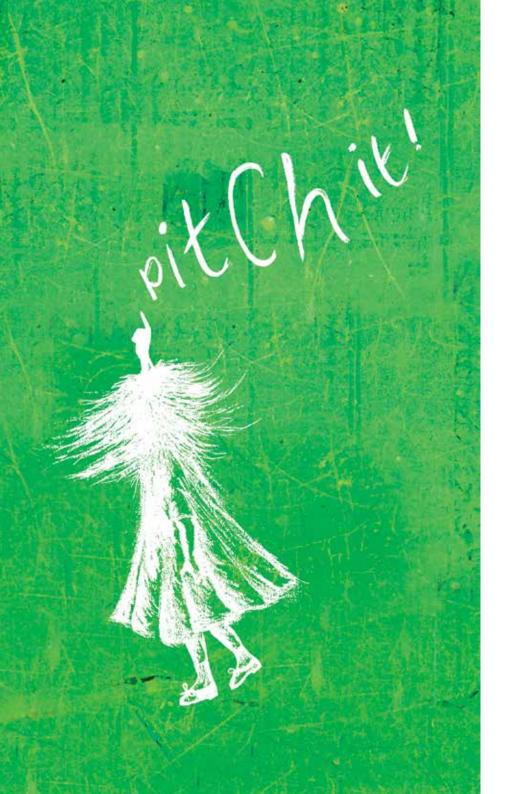

Girls Safety Force

Plan#2093

School: Plus Two Balika Uchh Vidyalaya, Kishanganj

The Big Problem: Manisha and Anisha, like other girls, want to study and become independent in life. Their school has a small boundary wall. Boys from outside keep on peeping and passing comments on the girls. Because of lack of security, many girls have stopped coming to the school.

The Solution: Manisha and Anisha believe skipping school is not the solution and they should not miss out on education. They want to collect funds to get a boundary wall constructed to make the school safe for everyone.

Turning old schools into new ones

Gulshan Kumar 15 yrs. Child Id: 0403T010083

Gulshan's Cycle Stand Co.

Plan#806

School: Shri Jhaksu Narayan Chaudhary Uchh Vidyalaya Bareta Semapur, Katihar

The Big Problem: Most of the kids in the school come to the school in cycles. However, the school does not have any assigned cycle stand where the kids park their cycles and they have to keep the cycles in a corner. Kids, many a times, lose their bicycles because of the same.

The Solution: One solution is to build a cycle stand where the kids could park their bicycles. They would convince their principal to acquire funds and if the principal is not able to do so, he would try to collect funds from wherever he can.

Radha Kumari 14 yrs. Child Id: 0211T072142

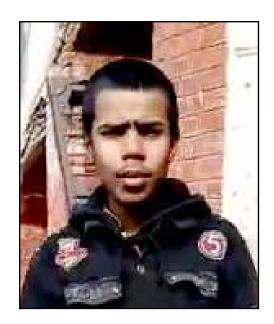

Radha's Classroom

Plan#7846

School: Plus Two Ram Shringaari Kanya Uchh Vidyalaya Kamtaul, Darbhanga

The Big Problem: Due to unavailability of classrooms in the school, there is a problem of delivering quality education.

The Solution: Build classrooms in the school premises. She wants her classroom to have basic facilities such as fan, light, door and blackboard which will help her in creating a better atmosphere for kids to study.

Mannu Kumar 14 yrs. Child Id: 0206T044028

Mannu's Dream School

Plan#2099

School: Plus 2 Marwari Uchh Vidyalaya, Darbhanga

The Big Problem: Mannu's school building is very old and in deplorable condition. It is unsafe and can collapse at any time. Most of the classes take place outside the classroom in the ground. With lack of adequate classrooms, the attendance has been steadily decreasing.

The Solution: Mannu plans to raise funds for the renovation of the building from the students, teachers, villagers and any other source which can fund the same.

Soni Kumari 14 yrs. Child Id: 0304T010099

Soni's School Maintenance Service

Plan#730

School: Plus Two Project Kanya Uchh Vidyalaya, Barachati, Bodh Gaya

The Big Problem: Soni's school is old. The paint is falling off the walls. The roof is damaged. The walls are cracked. There is no proper drainage system in her school that leads to stagnation of water. Toilets do not lock. There is no water. So many problems. All these problems result in her fellow students choosing to stay at home. She wants them all back in school.

The Solution: She wants to raise funds to repair her school. Get it plastered and painted. She will make a team to maintain the school. She will also install dustbins so that students throw garbage in the proper place.

Prachi Kumari 14 yrs. Child Id: 0403T010319

Prachi's Smart Class Service

Plan#811

School: Shri Jhaksu Narayan Chaudhary Uchh Vidyalaya Bareta, Semapur, Katihar

The Big Problem: The primary problem in the school is lack of innovative teaching in the classes, like many new schools. There is a need for a smart lab wherein technology such as projectors can be used to teach the kids.

The Solution: She, along with her classmates, would write a letter to the principal, stating the need for a smart lab and how it would be helpful for the kids. The kids will benefit by the use of new technology. They would also try to raise funds from anyone they can to set up the smart lab.

Anjali Kumari 15 yrs. Child Id: 0907T040071

Anjali Blackboard Chalk Co.

Plan#4180

School: Utkramit Uchh Madhyamik Vidyalaya, Samastipur

The Big Problem: No blackboard in classes. Is a classroom really a classroom if it doesn't have a blackboard? Anjali doesn't think so. She wants to get blackboards in her school so that they can learn and teachers can teach easily.

The Solution: Anjali plans to first find out how much a backboard will cost, then collect funds to finally get it installed in her classroom.

Sindu Kumar 13 yrs. Child Id: 0503T013067

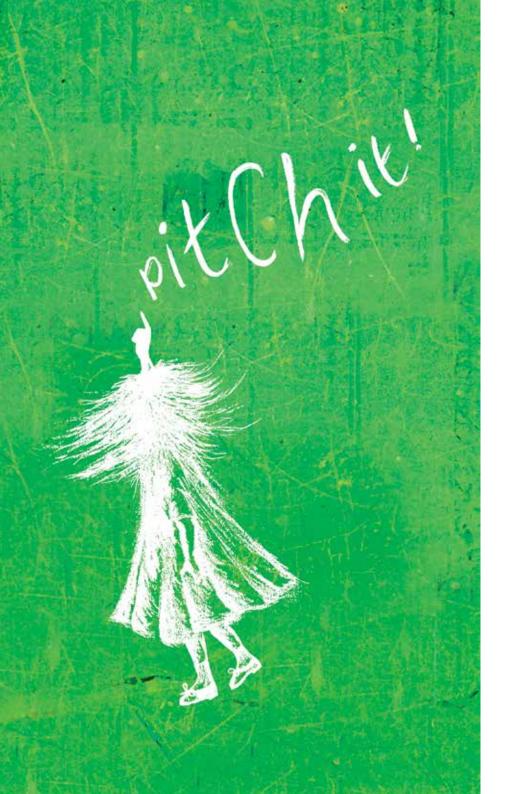

Sindu's Place to Play

Plan#1640

School: Utkarmit Madhyamik Vidalaya, Khagaria

The Big Problem: Lack of appropriate playing ground. Sindu loves to play, his favorite sport is Cricket. But he can't play on the ground as it has turned into a big pit and a breeding spot for mosquitoes and insects. He thinks that sports is an important part of every child's life.

The Solution: He has talked to his teachers and reached a solution. He will ask local labourers for leveling the ground. He will be raising funds for soil to fill the pit and the wages of the labourers.

Sports for girls, sports for boys

Anjali Kumari 14 yrs. Child Id: 0324T098140

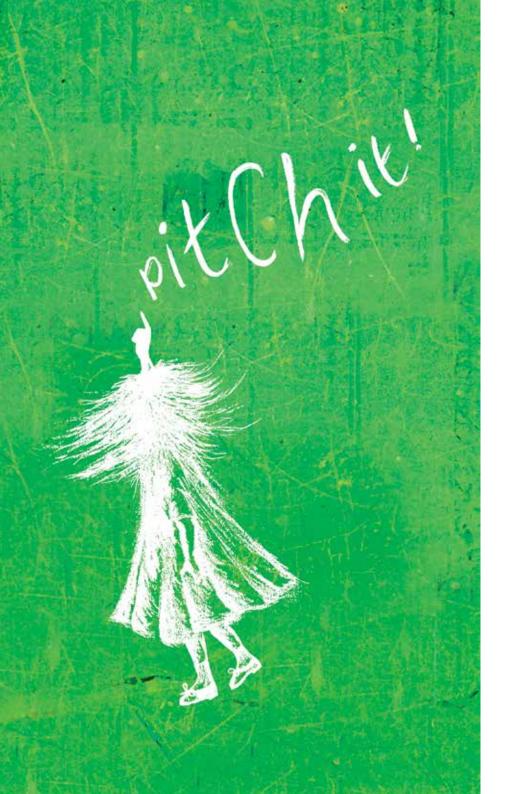

Anjali's Sports Scheme

Plan#1634

School: Plus Two Satyavanti Uchh Vidyalaya, Bodh Gaya

The Big Problem: Everyday, Anjali's friends don't stay back in school after lunch. When she spoke to them, she realized that most of her friends feel bored to study for long duration.

The Solution: Anjali's plan is to talk to the principal and introduce a games period. She will raise funds to organize Kabaddi & Cricket competitions to encourage students to be attentive and stay in school till the last bell. She will also be doing weekly recreational activities like playing indoor board games, etc.

Innovate: Building a low cost air purifier

Ankush Kumar Jha 14 yrs. Child Id: 0912T063102

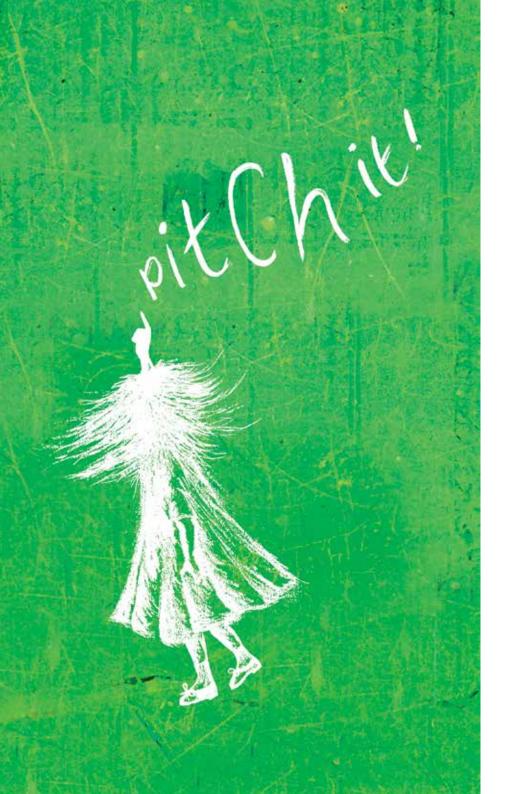

Ankush's Clean Air Co.

Plan#1801

School: Plus Two Uchh Vidyalaya Sarayranjan, Samastipur

The Big Problem: Polluted Air. Ankush's school is right on the main road. Majorly affected by polluted air due to dust and smoke coming from vehicles and trucks and brick kilns around his house and school. This makes the air soupy, unbreathable and kids get sick.

The Solution: To purify the air, he wants to create an air purifier using waste material like carton and old cloth that helps clean the sir that comes into the classroom through windows and ventilator.

Cleaner Schools are Better Schools

Preeti Kumari 14 yrs. Child Id: 0105T028094

Preeti's 'Clean your School' Campaign

Plan#262

School: Hari Mohan Thakur Bahadur High School, Bhagalpur

The Big Problem: Plastic. Waste. Paper. Wrapper. Garbage everywhere. Preeti goes to school and can't focus on her studies. She sees her friends throwing garbage all over the school. If only the school had dustbins. If only the kids knew the importance of keeping surroundings clean. She wants to make this happen.

The Solution: Set-up dustbins across the school campus. Teach kids about recycling. Teach kids about waste management and the importance of cleanliness.

Preeti Kumari 14 yrs. Child Id: 0408T023301

Preeti's Clean India Scheme

Plan#517

School: Adinlal Uchh Vidyalaya Sonelli, Katihar

The Big Problem: Heaps of garbage piles around the corner in Preeti's school! There is trash lying all around. The condition of the school is unhygienic with foul smell, mosquitoes and flies everywhere. Further, the road leading to the school is also in a dire state.

The Solution: The road leading to the school needs to be repaired and saplings need to be planted along the road. Further, to manage the problems of garbage disposal, dustbins need to be placed in the school. She plans to make a team and report the same to the principal and the municipal authorities to get it cleaned.

Tannu 13 yrs. Child Id: 0815T092536

"Clean School, Clean India" campaign

Plan#3046

School: Rasbihari Inter Vidyalaya, Nalanda

The Big Problem: Dirty School. When Going to School asked Tannu about her biggest problem, she had many in mind. But one which worries her most is lack of cleanliness. Her schoolmates throw garbage here and there during lunch break. Packets of chips, candy wrappers, etc. All of these things worry her a lot. She thinks people should love environment and should act as responsible citizens in making India clean.

The Solution: She wants to run an awareness campaign in her school. She will be placing banners and posters which talk about her Clean School, Clean India campaign. She wants to install dustbins and plant trees through her campaign. She wants different dustbins for plastic waste and bio-degradable waste in her school.

Malika Ansari 13 yrs. Child Id: 0307T024014

Malika's Cleanliness Campaign!

Plan#70

School: G.S.M Kanya Ucch Vidyalaya, Bodh Gaya

The Big Problem: Plastic. Waste. Paper. Wrapper. Garbage everywhere. Malika wants her school to be as clean as her home. She sometimes wonders why people don't treat school as their home. She sees her friends throwing trash all over the school. She thinks one of the reasons for this is not having a dustbin.

The Solution: Malika believes that spreading awareness is the only tool through which she can change people's perspective. Attractive pamphlets for cleanliness rally, appealing banners and posters are all designed. What is she waiting for then? Funds! So that she can organize a good rally with great impact. She also wants to set-up dustbins across the school campus. Aware students about waste management.

Estimated Amount: Rs. 3,020/-

Neha Kumari 14 yrs. Child Id: 0106T040355

Neha's Anti-Trash Squad

Plan#3863

School: Rajkiyakrit Uchh Vidyalaya Akbarpur, Bhagalpur

The Big Problem: No dustbins. Shipra's school is messy because kids throw rubbish all over the place.

The Solution: Recycled tin cans can be converted into Dustbins and placed in front of every class. One for bio-degradable waste and one for plastic waste.

Surekha Kumari 14 yrs. Child Id: 0211K029

Surekha's Waste Management Service

Plan#Z-0208

School: Katurba Gandhi Balika Awasiya Vidyalaya, Premjiv, Darbhanga

The Big Problem: Plastic. Waste. Paper. Wrapper. Garbage everywhere. Also, water stagnation in her playground does not only make it tough for her to play, but also gives rise to water borne diseases.

The Solution: She plans on reusing the empty tin cans from the kitchen and install them in the playground to be used as dustbins. She will make sure that students throw degradable and non-degradable trash in different dustbins. She would collect more funds if required to install more dustbins.

Shalini Kumari 15 yrs. Child Id: 0903T021008

Shalini's Cleanliness Scheme

Plan#2381

School: Rajkiye Bhuvneswar Singh Uchh Vidyalaya, Samastipur

The Big Problem: Dirt and Litter. No dustbins for the disposal of waste. Shalini wants a garbage free school.

The Solution: She plans to place two types of dustbins. One for degradable waste and the other for non-degradable waste. She will colour code them. She also wants to make organic compost from the degradable waste collected in the school, that can be used to improve the fertility of the soil.

Aayushi Kumari 14 yrs. Child ld: 0909T043055

Make Your School Clean Campaign

Plan#1346

School: Rakiyakrit Janta Uchh Vidyalaya, Samastipur

The Big Problem: Litter. Mess. Garbage everywhere. Aayushi's biggest problem is that her school is dirty.

The Solution: She has a solution. Aayushi wants to place dustbins in her school. Along with help from her friends, she wants to collect all the garbage, segregate it - separating plastic and other non-degradable waste to prepare organic manure that can be used in gardening.

Gayatri Singh 14 yrs. Child Id: 1105T001424

Gayatri's 'Clean School, Clean India' Campaign

Plan#5901

School: Rajkiye Balika Uchh Madhyamik Vidyalaya, Patna

The Big Problem: Gayatri's school has no dustbins, it is littered and dirty.

The Solution: Waste Tin cans can be recycled to make dustbins for the school. One for bio-degradable waste and one for plastic waste, two dustbins to be placed in front of every class.

Shivangi Maurya 13 yrs. Child Id: 0815T092451

Shivangi's Clean Environment Co.

Plan#2203

School: Rasbihari Inter College, Nalanda

The Big Problem: Shivangi loves reading Going to School's Books. 'Hariyali Idhar Udhar' is her favorite book, as it gave her an opportunity to grow her own organic farm. She thinks her school should have more trees. People should be aware about the importance of plants and do their best in protecting them. She thinks one should use dustbins to throw garbage. Throwing plastic in soil makes it less fertile, which in turn affects humans.

The Solution: Shivangi has a clear blueprint of what she is going to do. She wants to run a huge plantation campaign in her school. Everyone in her school will adopt a plant and take care of it. She will also install blue and green dustbin in her school where plastic will go in Blue dustbin and degradable things will go in green.

Pooja Kumari 13 yrs. Child Id: 0815T092452

Pooja's Good Hygiene Awareness Scheme

Plan#2972

School: Raas Bihari Plus Two Inter School, Nalanda

The Big Problem: Pooja thinks negligence towards basic hygiene is the main problem in her school. Garbage! Trash! Wrappers! Dirty playground! How can she make her school a clean place? In order to concentrate on her studies without worrying about such unhygienic conditions.

The Solution: Installation of dustbins everywhere, in front of every class, different corners of the ground, everywhere. One for biodegradable waste and one for plastic waste.

Khushbu Kumari 14 yrs. Child Id: 0206T048107

Khushbu Dust-In-Bin

Plan#1469

School: Plus Two Deshratan Doctor Rajendra Prasad Balika Uchh Vidyalaya, Darbhanga

The Big Problem: Heaps of garbage pile around the corner in Khushbu's school! There is trash lying all around the playground. The condition around the school and its playground is unhygienic. Foul smell, mosquitoes and flies stop the kids from playing in the playground.

The Solution: There is a lack of dustbins in and around the school. She believes, that if there are dustbins in places where it is necessary in her school, half of the problem will be solved. She will also request municipal bodies to regularly pick up the trash from her school so that the school is clean and hygienic without heaps of garbage lying around.

Saurabh Kumar 15 yrs. Child Id: 0411T046030

Cleanliness for All Co.

Plan#6683

School: Ayodhya Prasad Plus Two Uchh Vidyalaya Kursela, Katihar

The Big Problem: Lack of cleanliness! The biggest problem in the school is garbage. This has led to a drop in the number of kids attending the school.

The Solution: There is a need for dustbins in all possible locations within the school. The whole school, from playground to the toilets, need to be cleaned and awareness campaigns would be conducted so that kids and villagers do not litter in and around the school. They would write to the principal and civic authorities for their support in keeping the school and the surroundings clean.

Sonam 14 yrs. Child Id: 0710T059019

Sonam's Good Hygiene Solution

Plan#3495

School: Project Balika Ucch Vidyalaya, Muzaffarpur

The Big Problem: Negligence towards basic hygiene is her school's main problem. Her school is always dirty and littered.

The Solution: Installation of dustbins everywhere- in front of every class and different corners of the ground. One for bio-degradable waste and one for plastic waste.

Rajan Kumar Sharma 14 yrs. Child Id: 0212T082080

Rajan Make Your School Clean Campaign!

Plan#1190

School: High School Barhi Kevti, Darbhanga

The Big Problem: Rajan loves everything about his school. However, he primarily worries about one thing - Garbage! All around the school and its surroundings! In alley! In toilets! Inside the classroom! Piles of garbage in the corner of the road.

The Solution: It all starts with us and ones belief in oneself. He will make sure that he throws trash in the dustbin. He has a ready-to-implement plan with a strong team. Want to know about plan? Look out for the causes of littering> Place dustbins at the required spaces with separate dustbins for degradable and non-degradable garbage>Follow-up with awareness campaign in the village to sensitize them.

Naziya Parveen 16 yrs. Child Id: 0603T024042

Dustbin Squad

Plan#315

School: National Uchh Vidyalaya, Kishanganj

The Big Problem: Uncleanliness at school. Naziya wants everything around her to be clean and gets disturbed when she sees her friends littering in and around the school.

The Solution: She, along with her friends, will make a team and motivate other students to throw the garbage only in dustbins. They will reuse old plastic buckets to make dustbins. They will also do an awareness campaign through posters and banners to demonstrate the need for cleanliness in one's surrounding.

Anshu Kumari 15 yrs. Child Id: 0305T018112

Save your Environment Scheme

Plan#278

School: Rameshwar Prasad Plus 2 High School, Bodh Gaya

The Big Problem: Anshu loves nature. She loves trees, flowers, birds, rain. She doesn't like when people cut trees, or use plastic bags, waste drinking water, or throw trash in rivers and lakes. When it rains, she sees drains being clogged which worries her. She thinks that everyone should not only love but also protect and take care of our nature.

The Solution: For doing anything big, one should take small steps. Anshu wants to spread awareness about the importance of environment. She wants to organize a huge rally. She will make a team who will make sure that nobody is throwing trash in the lakes or cutting trees. She will also make posters, banners and flyers.

Pawan Kumar Das 14 yrs. Child Id: 0215T097002

Pawan's Awareness Campaign

Plan#1738

School: Nav Utkramit Uchh Madhyamik Vidyalaya Dahora, Darbhanga

The Big Problem: Pawan is not happy with his surroundings, especially in and around the school. Villagers litter here and there. Dirty playground. Classrooms are filled with wrappers of chips and candies.

The Solution: Pawan wants to create awareness campaign on the importance of a clean environment. He, with his team, has prepared a play. He will perform in his school and in the village and ask people to use dustbin to throw garbage and not to litter around. He would also organize a rally to sensitize people on the importance of clean surroundings. He and his team would prepare banners and pamphlets for the same.

Dolby 14 yrs.

Child Id: 0324T094071

Neat and Clean School Campaign

Plan#606

School: Uchh Vidyalaya, Sakardas, Bodh Gaya

The Big Problem: Littering by kids is a huge problem in her school. This has caused health issues among the kids. Also, with garbage all around the playground, they are not left with any space to play.

The Solution: Dolby, along with her classmates, is planning to start an awareness campaign to sensitize the kids and the villagers on the problems of littering. She would also use old recycled tins as dustbins which would be placed at different places accross the school, so that the children throw the garbage only in the dustbins.

Sonali 14 yrs. Child Id: 0307T038157

Sonali's Clean Co.

Plan#2326

School: Ramruchi Balika Vidyalaya, Bodh Gaya

The Big Problem: Sonali always worries about one thing - Garbage. In alley. In toilets. Inside the classroom. Piles of garbage on the road. Garbage all around. Her school is a mess. Dirty and littered.

The Solution: Sonali wants dustbins to be placed in her school campus. She will make sure that everyone throws the trash in the bin.
