

The school of our dreams

Fundraising project to build a
school in Siloé, Cali Colombia

“To me, the poor are like Bonsai trees. When you plant the best seed of the tallest tree in a six-inch deep flower pot, you get a perfect replica of the tallest tree, but it is only inches tall. There is nothing wrong with the seed you planted; only the soil-base you provided was inadequate.

Poor people are bonsai people. There is nothing wrong with their seeds. Only society never gave them a base to grow on.”

— Muhammad Yunus, *Creating a World Without Poverty: Social Business and the Future of Capitalism*

Hi! we are Adar and Lili, two siblings who grew up in one of Cali's most vulnerable comunas. We created a school in 2016 to give access to quality bilingual education in our community. Colegio La Fontaine serves today 250 students in a 400 Mts2 facility

Bilingualism + STEAM + XXI century skills

We created an educational model to bring quality bilingual education to children in need. Our students are empowered with the tools they need to make their way through life despite the adverse environment that surrounds them.

Jeremy was one of
our favorite students

He attended Colegio La
Fontaine since first
grade and he finished
primary school with us

We cried so much on
his graduation day

Unfortunately, fifth grade was
the last year at our school for
him because our facilities are so
small that we can't offer the
higher levels of education

Today, Jeremy goes to a traditional public school after dropping out in the same year from a low quality private school that didn't meet his needs or helped him work on his dreams. He wants to be a public speaker!

Like him, there are over 60 students who have been forced to leave our school because we don't have SPACE for middle and high school students.

ROOM FOR MORE

We realized that our growth is limited due to our limited physical space. The more room we have, the more impact we can make.

IT IS TIME TO GROW!

THE SCHOOL OF OUR DREAMS

is an eco school with a sustainable and innovative educational model that serves 1000 children K-12 from one of the most vulnerable areas in our city

Febrero 14 de 2023

EVIC

Our students dream of a school with sports facilities, a swimming pool, an auditorium, forest, playgrounds, and labs. A school with more space to GROW.

A place to grow to the fullest!
