

Help Document the Legacy of a Global Peacebuilder

MARCH 2018 PROJECT REPORT 3

Dear friends,

During the last months a significant amount of work was put into developing the film subtitles in other languages, specifically in Spanish, Portuguese, French and German. We will continue working in this area and are looking forward to making the film available also in other languages in due course.

Also, we are happy to inform you that our documentary won a new award for 'Best documentary' at the 2018 Global Independent Film Awards!

Many thanks to all and warm congratulations to the team!

UK Launch and LONDON PREMIERE

On June 7, 2018 The Man Who Built Peace – The Frank Buchman Story, will have its UK launch and premiere in London.

This is a great opportunity for wider audiences to see the documentary and experience the transformative power of this influential and inspirational man, and learn about his work. We hope to engage local communities and young people at the event, and encourage them to act as ambassadors for the film and 'be the change' that they wish to see in the world.

The London premiere will be followed by regional screenings in 8 UK cities.

The Initiatives of Change UK team have made a generous contribution towards the costs of this launch but the screenings still require additional funding of £8000 and for that purpose the project team have set up a separate crowdfunding campaign.

You all have been very generous with your donations a year ago and we are inviting you to support the screening in London and beyond. This is an opportunity to continue to support the documentary and its work to tell the story of a great man with an important message.

Please consider supporting this important initiative in UK with online donations via this GlobalGiving crowdfunding link:

www.globalgiving.org/projects/man-who-build-peace-uk-launch/

Many Thanks and stay tuned for our future updates!
