

# YOUTH CENTER ZAJECAR

THE LATEST NEWS AND UPDATES

## HAPPY HOLIDAYS FROM ZI TEAM

Dear friends and colleagues,

We wish you Happy Holidays and a fantastic New Year! Let this year be full of challenging and rewarding projects, new interesting acquaintances and achieved goals! Our New Year's resolution would be to create conditions for young people to benefit from Youth Center's programs during summer time. We are much looking forward to starting working on Center's summer garden in early 2019.

## Refreshed Look of the Youth Center

Great news for the beneficiaries of the Youth Center! We have renovated the space of Center's youth cafe during September and October 2018. Newly painted walls, new look, new decoration... Nothing much but still nice and enjoyable for young people. We have received excellent feedback from our beneficiaries.

We will start reconstruction works in the backyard of the Youth Center in March 2019 with the support of German Agency for International Cooperation. We are expecting to officially open the summer garden in early May 2019.

## The Center of Genunie Community Debates

When there are no free media and open spaces for public debates, it is even more important to provide opportunities for local citizens to discuss critical community issues. From November to December 2018, Youth Center has organized five public debates about health, women status, security, quality of life and local economy that were streamed on Internet.

## No Doubts: Culture is IN!

Once again, we have re-confirmed critical importance of Youth Center's role in providing quality cultural content to young people in the community. The start of new season has brought increased number of people that participated in many cultural events organized in October, November and December 2018. Center permanently seeks to provide new content to youth!
