Digital Woman Without Losing the Essential

Julieta Lujambio talked about the tendencies that have emerged from the digital era throughout the years, how it has changed the world from analogue to digital and how that has affected the role of women and mothers. The advantages and disadvantages that can be found in these tendencies and how to give it a better enjoyment.

Responsible Mothers for the Safety of their Children

Officer Abril Martinez, of the Federal Police showed us the dangers our children face in the Internet, how they are affected by the famous "influencers," who lead them to challenges, some of them harmful to their health, like the "blue whale challenge." During her conference, those present were informed about all the dangers the youth face, like harassment, bullying, sexting, human trafficking, and the importance for mothers to recognize these issues and look after the behavior of their children.

Digital Tools for Women

Ivette Chalela, Manager of Office 365, during her conference she showed us the benefits that Office 365 has to offer to all of those women who want to include themselves in the digital age, and how it can facilitate their day-to-day activities. She demonstrated the advantages of the Office 365 applications. One of them, Excel, excellent for planning a family event; OneDrive, to secure save your photos and personal files, among other applications.

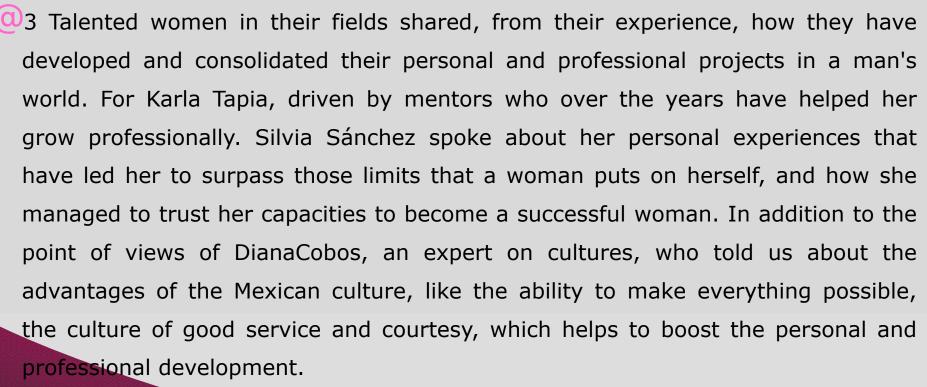

C During this conference, the attendees benefited from the donation of an Office 365 account, on behalf of Mamá Digital.
