

WHAT IS V.Talks ?

V.Talks "Volunteer Talks" is a conference held by YWT Org to present volunteers' past experiences in the Yemeni society, whether positive or negative, in order to give other volunteers a background about how to

success in volunteering and to focus their attention on what could be faced in volunteer work in order to avoid mistakes and to pass on successful experiences that carry within many inspirational ideas.

WHY V.Talks ?

To give a chance to volunteers to express what they're feeling inside, share their stories and pass on advises.

V.Talks is the first stage established only for volunteers, from which we hope to further introduce and spread the volunteer work consciousness in our Yemeni society by showing its importance and its many positive impacts on the volunteers themselves and the society surrounding them. Also, to draw the attention to the significant job the volunteers have been doing in our country for the past few tough years.

V.Talks continuity:

To reach our goals in the volunteering world, V.Talks will be followed by many projects, programs and activities; to insure its message gives a stronger influence and reaches as many people as possible.

We look at V.Talks as a chance for all the Yemeni volunteers, of different establishments, organizations and initiatives, to gather in an annual meeting that welcomes anyone who shares the passion of volunteering.

Wealthiest people... With their tender, experiences and efforts.
