

FINAL REPORT

Equipping 25 Houses After Emergency in Huarmey - Peru

Project 29458

I. INTRODUCTION

The project Equipment of 25 Houses after the Emergency in Huarmey was born in September 2017, it was promoted and disseminated through social networks, website and communication to direct and indirect friendships, which allowed that within 15 days we managed to have 82 payments of people and institutions identified and anonymous, concluding on September 30.

The purpose of this report is to give an account to all the people and institutions that collaborated with their donations.

This project was created to complement the project "Housing for the restoration of a normal and dignified life in Malvas, province of Huarmey Ancash", which began to be implemented in June 2017, as a result of the El Niño Costero phenomenon. As part of this project, 25 houses were originally built, but then the budget was obtained to build 5 more houses, making a total of 30 homes built. These homes were built in some cases in adobe and others in noble material, in three locations: Ejirca, Utcu and Molinopampa.

II. INCOME

DESCRIPTION	DOLAR	SOLES
Total Amount Raised	\$ 5,269.00	
Processing Fee y Nonprofit Support Fee		
Net Amount Raised	\$ 4,293.65	13,965.08

The resources were deposited in our account in January 2018, the date on which we were already concluding the construction of the houses and bathrooms of the project "Housing for the restoration of a normal and dignified life in Malvas, province of Huarmey Ancash".

III. ACTIVITIES PERFORMED

To decide with what to equip the houses, a small survey was carried out that allowed us to identify, with the budget we had, what was the greatest need of the

families at that time. It was determined that families required mattresses because in the flood they had failed or lost the ones they had.

At the time of making the purchase, it was decided to buy the brand of mattresses that would give the greatest guarantee of comfort and durability, within the budget we had, choosing for this reason the brand Paradise. The purchase was made in the city of Lima for having the necessary stock and because the prices were more cheap.

To decide how many mattresses to donate to each family, we were guided by the number of members, so that the parents slept on a mattress different from that of the children, as well as each child had a mattress to sleep on, as far as possible.

The delivery of the mattresses was made to coincide with the delivery of the houses built, so we went house by house.

It is important to mention that as part of the work that was carried out in the three locations in which they worked: Erajirca, Molinopampa and Utcu, training was given in healthy habits to all families strengthening their personal hygiene habits, emphasizing the need to differentiate the rooms of parents, sons and daughters, management and maintenance of the hygienic services, etc.

IV. ECONOMIC RENDITION

The expenses made with funds raised in Global Giving are:

DESCRIPTION	SOLES
Purchase of Mattresses	10,506.72
Freight	1,620.00
Distribution and Delivery ceremony	1,800.00
Total Spent	13,926.72

V. LIST OF BENEFICIARIES

Below, we present a list of the families to whom the mattresses have been delivered, as well as the number of mattresses that were delivered to them.

FAMILIES OF THE LOCALIDADES OF ERAJIRCA, UTCU AND MOLINOPAMPA BENEFICIARIES
