

**Dear Donor,**

In few months demolition will start and this represent the beginning for a new stage for work and goals. With these new facilities we can offer our services with better quality. Our population are pretty happy with the renders that we show them, the new goal is increase the users that we have nowadays.

We considered elderly people deserve a dining room with all the comfort and other inclusion community activities into the center so that they feel that belong to a big family.

We keep working so hard in our Community Center. You have made this possible and we want to share with you!

Thank you!
