

## PROJECT/PROPOSAL CONCEPT PAPER –

1. Organization's name: Mabaret Phalastine Society For Caring
2. Address: Gaza, Al Oyoon Street, in front of Al Eman Mosque
3. Telephone: 08-2877744 Fax: 08-2877744  
E-mail: [info@mpalestine.ps](mailto:info@mpalestine.ps)
4. Key contact person and title: Miss Karima Al Ghoul . 0594217140
5. Legal status of applicant organization (*provide copy of valid registration*):
6. Applicant's operational capacity and expertise (Briefly describe organization, purpose, and past relevant and related experience):

Mabarret Phalastine Society For caring was established in 1994 and since that time, the first and last attention has been devoted to caring for and accommodating children, women, and men with Cerebral Palsy. The Society works on five programs:

The five programs of the Association are:

### **1) Permanent care and shelter program ( alternative family )**

Mabarret Phalastine Society For caring works basically on the shelter and care of cerebral palsy children, women and men who are suffering from cerebral palsy and multi disabilities under the age of 60 years who have lost their foster family because of the disintegration of family or death or other social reasons, preventing the family to do its known social role, or cases which are exposed to any kind of harassment and physical or psychological violations. The association provides for this category in addition to the service accommodation, other services such as:

- Occupational Therapy
- Speech therapy, speech problems and behavior modification
- Psychotherapy
- Entertainment

The total number of permanent residents in care is 38 guests (children, men, women) because the assembly believes in a clear message which is **( their lives are right and their protection is our duty )**

Those persons need permanent care. The association aims primarily at patients with cerebral palsy who have lost the foster family, providing them with permanent and overnight care, food and drink, as well as treatment, where they often suffer from inability to eat or drink alone, but

need to support their daily needs from food, drink and even operation directed by continuous need to normal and occupational therapy , speech therapy and paying attention to their cleanliness and provide them daily needs of medicine .Mabarret Phalestine Society for caring takes care of a major role of complement their treatment programs by recruiting teamwork who must have different skills , attituests and experiences of dealing with those of carpal palsy of children , women and men and with excellent qualifications and experiences that managed them to do their jobs as best as they can.

Rehabilitation is an integral part of treating cerebral palsy. There are several methods at rehabilitation that vary in their difficulty and effectiveness. The basic principle is always the immediate and effective early start of intensive rehabilitation services, which can certainly alleviate the consequences of brain damage in relation to the movement of cerebral palsy . In terms of rehabilitation, cerebral palsy is primarily a disorder of movement and posture .Rehabilitation therapy should be a dynamic process, treatment should begin early and be performed regularly and individually . Through physical rehabilitation we seek to improve the quality of the basic functions of the patient, reduce the lack of scope of activities in order to obtain full or partial independence .Cerebral palsy cases are in fact the most difficult cases, but this does not mean that the conditions are unchangeable

The Association works according to the rehabilitation program within the community on the basis of the rehabilitation matrix, which includes:

- Health : providing physical and functional therapy, solving speech problems, modifying behavior and providing medicines.
- Education : Through the SJI school program( formerly Gaza Private School)
- Livelihood : By helping parents provide income to the family in partnership with Nafezat Al-Khair Society.
- Work : by providing job opportunities for parents of some people with disabilities and providing opportunities for 66 employee at the society

This program depends on the day-to-day work of the casualty, so cerebral palsy needs a full staff working 24 hours to take care of them. The staff contains Treatment Specialist ,Functional treatment specialist ,Physiotherapists , Psychologist, cooks , cleaners , doctors , section managers , accountants and watchmen.

This program provides 24 hours service for people who suffer from carpal palsy ; that is we can't stop this project because the fund is over. This program depends on providing its services continuously.

- 2) **The daily care program ( 36children) ,where children** receive cerebral palsy and multiple disabilities every day for 6 hours in which they receive the care and services they need.
- 3) **The Home Care Program ( 30beneficiaries)** This program aims to reach the victims of cerebral palsy and multiple disabilities in their place of residence and provide them with all services to which their humanity is reserved.

**Sejy School for Special Education( 42 students)** The education service is offered to this category in proportion to their abilities

7. Title of proposed project: There lives are right and their protect is our duty

8. Analysis of the problem to be addressed and justification for the project:

Shortage of providing medical services for children , women and men who have cerebral palsy and several disabilities

9. Overall project goal and strategic objectives (SO):

Provide full care for patients with cerebral palsy who have lost their foster family

- 1) Provide an integrated staff to care for patients with Cerebral Palsy
- 2) Provide ideal care for patients with Cerebral Palsy
- 3) Provide job opportunities for a number of unemployed graduates Results and deliverables to be achieved, linkage to project objectives, and verifiable indicators of achievement.

10. Main tasks/activities of the project: [calenda

- Occupational Therapy
- Speech therapy, speech problems and behavior modification
- Psychotherapy
- Entertainment

11. r activities with estimated periods, responsibility and results].

	Timeframe (periods)	Responsibility	Expected Results
Project overall	Provide full care for patients with cerebral palsy who have lost their foster family

		continuously.	Psychotherapy therapy
Task/Activity 5	• Entertainment		Making them happy

12. Identify beneficiaries, disaggregated by gender if possible, number, geographic area covered and how they will benefit from the grant:

13. Expected project duration from start to finish:

14. Approximate cost of this project (cash, in-kind, and third-party sources):  
The Cost For six month

Cost	Amount Requested from IMC	Cost Share, (if applicable)	Total
Salaries/Labor	20000		20000
Fringe Benefits	2000		2000
Project Activities Direct Cost	14000		14000
Supplies and Materials	10000		10000
Contractual/Professional fees	1000		1000
Travel & Transport	1000		1000
Communications	1000		1000
Other Direct Costs	40000		40000
<b>Capacity Development</b>	1000		
- <i>Capacity Development cost other than equipment</i>	1000		1000
- <i>Equipment</i>	10000		10000
<b>TOTAL COST</b>	100000		100000
