**GlobalGiving RECEADIT Mbam Community Health Care Project (29930)**

**Twenty Second Project Report of Sunday, March 31, 2024**

On behalf of our RECEADIT Humanitarian Team, I take this opportunity to thank you so, so very much for your generosity and willingness to join us and to partnership with us on our journey of serving humanity through the Guidance, the Blessings, the Love and the Grace of God Almighty.

We are glad to provide you with the following progress report and updates for our “Mbam Community Health Care Project (29930)” thanks to your humanitarianism and generosity:

1) For this Twenty Second Project Report, our main focus is again on our **RECEADIT/GlobalGiving Partnership, Mbam Community Health Center (See First, Second, Third and Fourth Illustration Photos)** and on our RECEADIT Medical Team workers’ determination to remain at their respective Clinics and provide needed Medical Services to: i) members of the remote, rural communities in which our GlobalGiving - RECEADIT Partnership Health Centers are located (See Fifth and Sixth Illustration Photos); and ii) our Internally Displaced Fellow Human Beings and those whose villages have been burnt down (See Seventh, Eighth and fifteenth);

The Report concentrates on the following:

- a) Vaccination Training and Vaccination of Children against malaria, which is very common and spreading widely during the Dry Season in these remote, rural communities in which our RECEADIT – GlobalGiving Partnership Health Centers are located (See Ninth, Tenth, Eleventh and Twelfth Illustration Photos);
  - b) Providing medical assistance, through our Home Visits Program, to members of the remote, rural communities in which our RECEADIT – GlobalGiving Partnership Health Centers are located (See Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, Sixteenth, Eighteenth, Nineteenth, Twentieth, and Twenty First Illustration Photos); and
  - c) Providing food and lodging assistance to some members of the Mbam Community whose children have left them all alone as a result of the war (See Seventh, Eighth and Fifteenth Illustration Photos);
- 2) Again, as we have reported repeatedly in our previous Project Reports, although we have an Organized, Medical Training Program for all our RECEADIT workers and a New Two Year Medical Training Program, we must point out here once more, with lots of regrets and disappointment, that: a) the intensified war keeps interrupting the program; and b) our School of Health, Biomedical and Computer Sciences (SHBCS), as well as all other schools in this part of the country, have not been operational since October 2016 due to the serious, ongoing political crisis and war in Cameroon.

We will continue to provide you with monthly reports and updates of our other projects, activities, accomplishments, and challenges.

We hope that you will continue with us on this our journey of serving humanity through the Guidance, the Blessings, the Love and the Grace of God Almighty, a journey which has taken us to this “Mbam Community Health Care Project” through our new link: <https://goto.gg/29930>

Jilly M. Ngwainmbi, RECEADIT Project Leader
