Home for Children "Ricardo Servente"

The Home for Children "Ricardo Servente" aims to provide our children the best possible conditions so they can grow up with love and support. We provide housing to children derived from Family Courts, whose rights have been violated and therefore are in a situation of social risk.

We work in an integral way in the care of children between 2 and 12 years, covering their basic needs of health, housing, food, clothing, education and recreation.

With the collaboration of our donors we shall offer every boy and girl a more suitable, safe and sound place where they can fully exercise their rights as children.

**Thanks to you,
we have received
\$952.36 in 2018 so far.**

With your donation, we were able to:

- buy furniture and kitchen equipment for the home.
- provide education and materials for one month for all children.
- feed three of the children that live in the house for one week.
- provide new clothing for five children.
- supply of personal hygiene items for three children.

For more information, contact us to
