

BODY SURGERY

Public Charity Organization

Danghara, Tajikistan

KEY INFO

- We provide free reconstructive surgery operations for the poor population in Tajikistan
- Our average costs per operation are \$210-270, including tools, hospitalization fees, medications, pre-surgery tests and transportation for medical staff
- All donations go strictly to the surgeries. Fund administration overheads are covered by the fund trustees.

KEY GOALS & ACHIEVEMENTS

WE AIM:

- To change the lives of at least 1000 individuals by 31 December 2020

WE HAVE :

- A team of highly experienced plastics & reconstructive surgeons and nurses
- Support of the modern and well-equipped Danghara Medical Hospital, which provides its facilities for the surgery and post-surgery treatment
- A dedicated administration team, whose overheads are covered by the fund trustees

WE ACHIEVED:

- 423 free reconstructive surgeries delivered since the start of the project in the early 2016

For 343 operations, at least :

- \$23 pre-surgery tests (200 TJS)
- \$45 anesthesia (400 TJS)
- \$45 consumables & surgical instruments (400 TJS)
- \$97 transportation, living & other expenses for medical staff (860 TJS)
- **\$210 (1860 TJS) total per operation**

Patients usually paid :

- \$68 for hospitalization fees (600 TJS)
- Post-surgery medications

10 surgeries fully funded by Body Surgery

**EXPENSES
PER
OPERATION**
