Our Story

Active Voices was borne out of passion and love for volunteerism and community service.

We envision a society where everyone irrespective of age, gender, disability, sexual orientation or religious affiliation is empowered to live to their maximum potential with utmost health and opportunities for development in a sustainable environment.

This has been the bedrock for Active Voices and through the pathway of the sustainable development goals, we work to achieve the envisioned society.

For Sustainable **Development**

LEADERSHIP

Active Voices is led by experts in health and development. The Founder supervises and provides support to the Executive Team who are the decision makers guiding program implementation by the organization.

Our Board of Trustees which includes leaders in health policy, human rights, business, social science, innovation and technology, and international development—oversees and guides Active Voices.

Active Voices tackles critical issues paramount to health and development

We believe in collaboration and work with several organizations to bring about positive change

OUR WORK

Education - We believe education is the single most effective way end the cycle of poverty and for this, we support education for all including vulnerable populations.

Sexual and Reproductive Health and Rights - Staff of Active Voices have relevant experience in sexual and reproductive health and rights. They have been champions and advocates for SRHR especially youth SRHR in Nigeria.

Adolescent Health - Preventable health risk behaviors are often established during childhood or adolescence and continue into adulthood. Focusing on adolescent health therefore translates into a healthier future.

Additional Focus Areas

- Research;
- Gender-based violence
 - Child Forced Marriage
 - Female Genital Mutilation;
- Climate Change;
- Governance and Peace Building

We bring great value by forging partnerships for transformation

We are pro-girl, pro-women and pro-youth .

VISION

Active Voices envisions a society of empowered youths, women and girls.

MISSION

To support and promote youth involvement and leadership for improved health, rights and sustainable development of adolescents, young people and women in Nigeria and Africa.

For effective development, we believe that education, health, and employment revolves interdependently around a cycle and the focus must be on young people.

We must:

- Educate
- Empower
- Employ

CAPABILITIES

Active Voices works to improve the health and rights of youths, women and girls.

Our capabilities include:

Behavioural and social research to provide data and evidence to support program interventions

Advocacy to bring about social and behavioural change including changes in policies

Capacity Building for passionate young people led by our team of experts and a vibrant pool of young people with vast experience

Youth Engagement and Partnership to support youth-led movements, ideas, and programs to improve the health and rights of youths, women and girls.

CREATING SOLUTIONS

With a focus on sexual and reproductive health and rights (SRHR), education, gender equity and gender based violence (GBV). We work to end female genital mutilation and child forced marriage, ensure young people have access to contraceptives including comprehensive sexuality education and promote menstrual hygiene management among women and girls.

YOUTH ENGAGEMENT

We believe the youths are a tremendous resource for change and Active Voices was established to support and promote youth involvement to drive change and overcome obstacles to health and development.

PARTNERSHIPS

We partner with notable youth advocates and organizations to drive the envisioned change in the society.
