

My name is Djenebou with AGILE International (in bleu above).

Since my association, Kankelentiki go involved with AGILE, we meet every Saturday, we get to know each other, build bonds, we are more aware of problems we go through. We've realized that if women struggle, men will not prosper and the family gain will never suffice.

My name is Diatou.

I work on AGILE farm every year. AGILE does not use chemical fertilizer or herbicide and we love the crops it produces. Everyone needs to do something. Now that we know more about each other, we can do more.
