

**BRAVE**  **HEARTS**

ETHIOPIA

## *Brave Hearts Ethiopia (BHE)*

*Supports Orphaned and  
Vulnerable Children (OVC)  
by ensuring they have a  
**safe and nourishing home,**  
**quality education** and the  
**psychosocial support** they  
need for the bright future  
they deserve!*

and Mekbib Tadesse*

*BHE has directly improved the lives of 61 orphan and vulnerable children, 35 guardians and 40 community members over the last 3 years of its operation. It has also indirectly supported 300 community members.*

Children such as Birhanu have had to deal with **extreme poverty**, the **grief** and **loss** of their parents and **taking care** of their ailing grandparents. **Most** do not get three meals a day and **struggle** with their education.

**BHFE** ensures they get basic services and **cope** with the psychological burdens they have faced from a very **young age**. Despite his challenges, Birhanu always has a **smile** on his face and hopes to be a pilot one day.

*Apart from support with **basic needs**, BHE provides much needed **counseling** and **psychosocial support** to the child or youth and his/her guardian. This model ensures a **resilient** and **healthy** environment in which to **thrive**.*

Young *teenage girls* like Abiba can go a long way with the *support* they receive. Abiba lost *both* her parents when she was only *5* years old. She, her grandmother and sister had to make ends meet.

*Today*, Abiba is excelling in *university*, loves *reading books* and aims to be a nutritionist. She has a *bright future* ahead of her.

*BHE strives to ensure a bright future for all the youth in the program. **Young teens** are given the **opportunity** to continue their **higher education** or gain **vocational skills training** so they can become **self-reliant adults**.*

*Temmar* along with other young adults supported by *BHE* is learning *new skills* in his *internship* at a high end restaurant in Addis. This is following his *successful completion* of a Hospitality skills *training*.

Although he went through a lot in his young life, Temmar now has a *smile* that lights the room, and is loving *cooking* his way to his *dream* of opening a restaurant.

*BHE aims to create a **sustainable livelihood** for families that struggle to secure their **basic needs**. Guardians are provided funding and training to start their own income generating activities (**IGAs**) so they can **better support** their **children**.*

*Guardians* like Sitota who had struggled to **support** their family are **empowered** by the opportunity of running their own small **business**. Her **child** Yibeltal now have a more **secure** livelihood.

Sitota sells fresh **vegetables** at a competitive price and earns a better living. Sitota and the other guardians have started returning their loans into a revolving fund. The fund will be **reinvested** to grow their business.

*BHE with its **partners** implement a **holistic care model** through **quality education** and **training**, **nutrition**, **income generation**, **counseling** and **psychosocial support** thus helping to ensure bright futures for children, youth and their families.*

*BHE works so **children** and **families** like Berta and his grandmother, Yemariam can have bright, secure and happy lives.*

***BHE** seeks to enable children like Berta to **shine**. Berta is a **brilliant** student that wishes to learn **robotics** and **engineering** one day. He hopes to win the **Nobel** prize and show what his country is capable of!*
