2,030

Dropout percentage: 3% 

TO MONITOR THE THREE INDICATORS IN EACH MUNICIPALITY

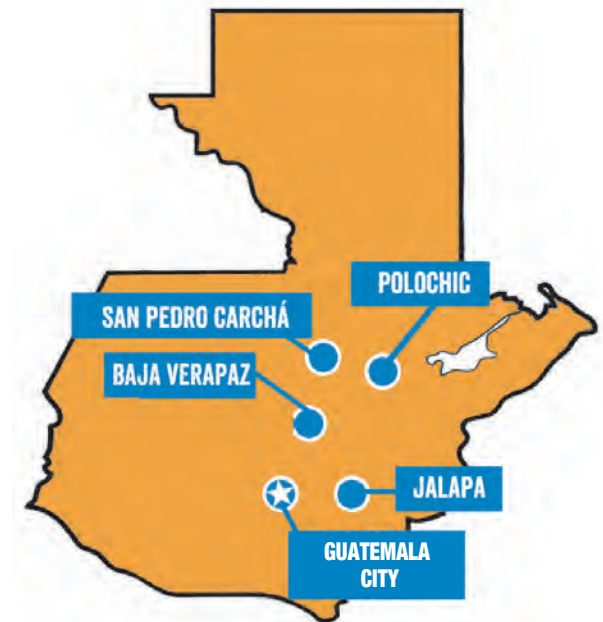

WE ARE UNSTOPPABLE W/EDUCATION

It's a program through which girls may continue their middle school.

These resources are used for their registration, school supplies, transportation and uniform.

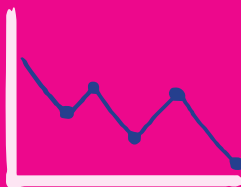

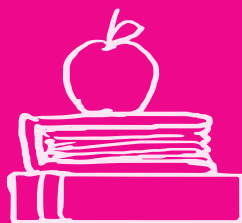

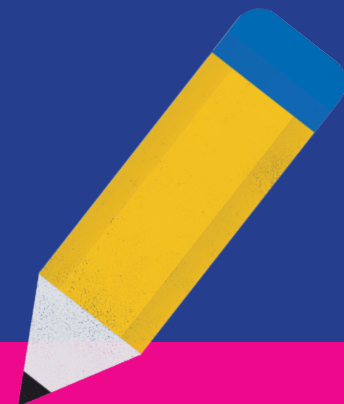

2,030 girls, in 500 communities, have been granted a scholarship.

This program started three years ago and **only 3%** of girls have dropped out of school.

I WANT TO LEARN!

IF A GIRL STUDIES AT LEAST 9 YEARS...

- **She transforms her life** and those around her. **School** teaches her ideas and attitudes that promote **gender equality**.
- There would be **15% less child mortality**. If all women received **secondary education**, child mortality would reduce by half, which **would save 3 million lives**.
- **Her income will increase by 20%** when she is an adult.
- **She will reinvest 90% of her income** in her family education, health and nutrition.
