

The Story

of

BITTS

Introduction!

B.I.T.S is in Hopington NH.
It is a therapy horse back riding place. It helps people with some things that are wrong with them. For me, I have anxiety. So anxiety is something that you can not control your anger. I still have it. And DAD! I have so much fun there.

Chapter one

My first day.

I had to drive in the car with my mom. It felt like forever. We finally arrived and I met my trainer and my bestest best friend, Melissa. I rode the biggest horse there Star. He was so much fun. We learned to walk, big walk, and halt. I did great! I also did great on the game we played!

Chapter two

My 4 time there!
It was my 4th time there
and I had to do a thing called
2-Point position. 2-Point position is
something when you have to
stand up in your saddle but
with your hands on your horses
shoulder. I did it, I was so
happy.

Chapter three

My 5th time!
Omg, I did the best thing
ever. I did that 2-point position
with my left hand, right hand,
and no hands on a new horse
named Brandy. She was awesome!
I at least I accomplished
the left and right hand.

Chapter 4

And now!

I am so awesome Now! if
you see me I have reins
and I just last week had
no leader I rode another
horse named yideon.

Thanks

B.I.T.S

I never

want to leave.
I am so happy you
are in my life.
