RE: INVITATION TO PARTICIPATE IN SAFEGUARDING TRAINING FOR THE REAL FATHER'S ECD PROJECT

All Nations Child and Youth Development Centre (ANCDC) in partnership with IIDC is implementing the REAL Father's project, an evidence-based model, which targets young fathers (16-25 years) and their children (0-3 years) to boost positive father-child relationships. Using home visits, mentorship sessions, and guidance on parenting, child development, communication, and conflict resolution with a major goal to build strong emotional bonds and empower fathers in the districts of Lira, Oyam, Kole and Dokolo. The primary aim of the REAL Father's approach is to decrease instances of intimate partner violence and violence against children within the communities where the project is implemented.

ANCDC has arranged to conduct collaboration meetings with strategic institutions and CSOs to strengthen REAL-ECD beneficiary's referral pathway in Kole district. Our goal is to create a strong working relationship between ANCDC and the strategic institutions and CSOs to create a clear REAL-ECD beneficiaries' referral pathway per district and to strengthen collaboration between ANCDC and other CSOs operating within Lango region where REAL-ECD intervention is also being implemented.

The training is scheduled to take place on the 12TH AUG, 2024 at Kole District headquarter from 10:00 AM to 12:00 PM. At the council hall.

We look forward to your cooperation and participation.
