

# Kids Saving the Rainforest Reforestation

# Project Description

KIDS SAVING THE RAINFOREST (KSTR) is a non-governmental organization for profit, which dedicates efforts to the recovery of forested areas, attention and care of wild animals for their later release; using own funds or through capital donations received to meet these objectives.

# Our Reforestation Property

Kids Saving the Rainforest develops its activities in the Central Pacific of Costa Rica, specifically in the towns of Quepos and Parrita. At the end of the year 2015 we received as a donation a farm located in the Mesas de Parrita, in Costa Rica the planting season is from Earth Day, April 22nd, until October 31st.

Our goal is to plant a forest that will serve for reforestation purposes, wildlife release, for education and investigation.

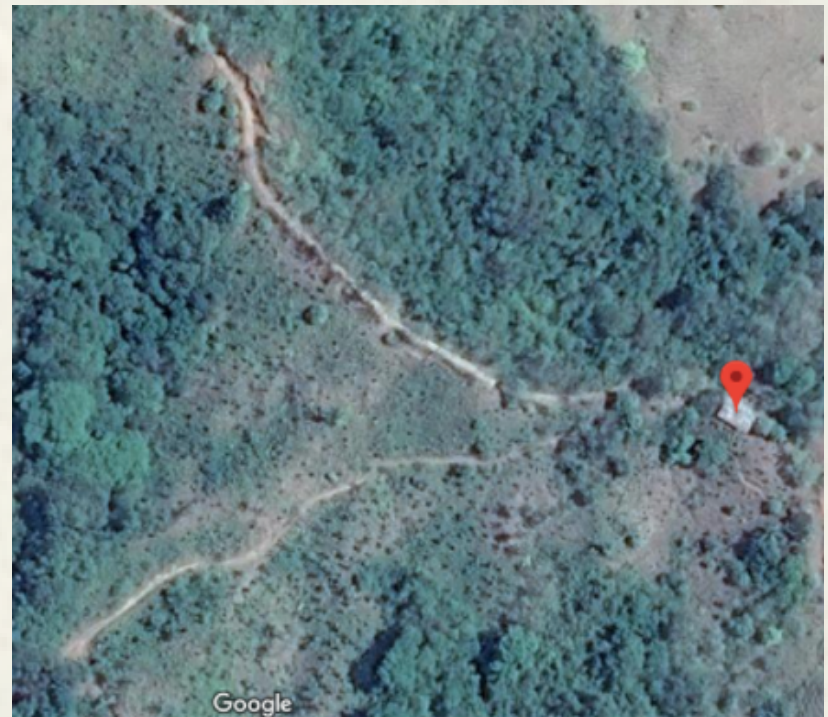

# Location

GPS Coordinates: 9°36'44.6"N  
84°22'20.5"W.

Google Location:

Parrita, Puntarenas  
Costa Rica

# Reforestation Details

## Reforestation Details

- We plant one tree per m2
- We plant each tree 3m from the next.
- The trees will be raised for a min of 20 years. and most forever.
- Long-term survival rate. We have two workers that live on the site and their only job is to care for the trees growing on the property.

## Tree Species

Manzana de Agua, Roble, Cebo, Ron Ron, Pilon, Muneca, Lorita, Sota Caballo, Caoba, Hule, Aguacatillo, Laurel Negro

Our trees are 6 months to 1 1/2 years old when planted.

# Current Financing

1. Souvenir store sales
2. Online Donations
3. Memberships.
4. Volunteers
5. Wildlife Educational Tours

## OUR PLEDGE!

**We believe that the rainforest is a storehouse  
of treasures.**

**We vow to do everything we can to save it.  
With the vanishing rainforest goes the future  
of our planet.**

**We have to be the generation that makes a  
difference!**

JANINE LICARE

**Thank  
You!**
