

## Supporting 50 Victims of Human Trafficking in Nigeria

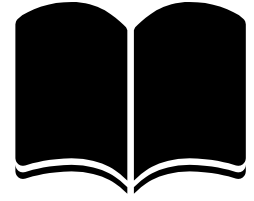

By Devatop Centre for Africa Development ([www.devatop.org](http://www.devatop.org))

# Introduction

*Human trafficking is a weapon against the future of young people, especially women and girls.* Human trafficking thrives within a culture of secrecy, invisibility and lies. Over 80% of the victims of human trafficking are young people, especially women and girls. Female victims are used for sexual exploitation and labour.

Apart from rescuing victims of human trafficking, rehabilitating/empowering them has been a major issue, and this makes them to be more vulnerable to trafficking.

# About The Project

This project focuses on:

- a.** Training Victims of Human Trafficking on Fashion/Design, Beadmaking, Catering, Hairdressing, Graphic Design and Printing, etc
- b.** Training victims on job creation and employment skills
- c.** Provide resources for them to start small scale businesses
- d.** Provide scholarships for victims who want to further their education

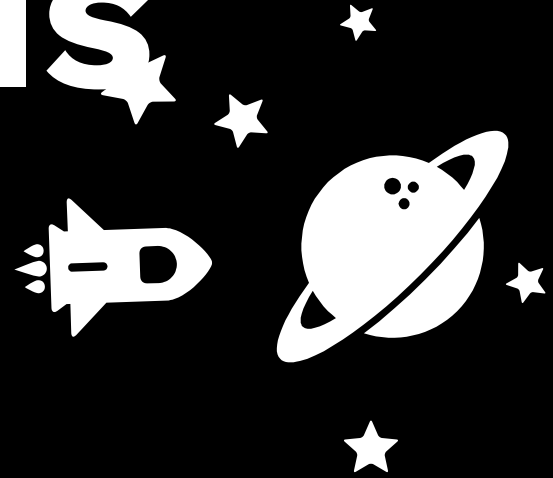

# **Expected Outcome**

- Victims of human trafficking will be rehabilitated and empowered with resources to create work
- Victims will be provided with scholarship.
- Victims of human trafficking will be equipped to start campaigns against human trafficking.

*If we don't do something to empower victims of human trafficking, they will be frustrated and vulnerable to second trafficking*

# If Nothing Is Done.

If nothing is done to assist victims of human trafficking, traffickers can recapture them.

# Cost Implications

a. Training Victims of Human Trafficking on Fashion/Design, Beadmaking, Catering, Hairdressing, Graphic Design and Printing, etc

**\$740**

c. Provide resources for them to start small scale businesses

**\$ 5000**
