

## Contractor evaluation report contd.

#9

<b>Organization name</b>	Carolina for Kibera
<b>Your name</b>	Leah Ambwaya
<b>7.1 What are the major lessons for GlobalGiving from this organization?</b>	This project is well funded by other donors, so that the little that comes in from GG is not recognized. (for lack of a better statement) However, they appreciate the GG is a fertile shopping ground for donor funding.
<b>7.2 What does this organization most require to become more successful on GlobalGiving?</b>	They take alot of pride in having an open door policy, but we did not experience that, despite the fact that letters of introduction had been send to them in advance and we had made deliberate efforts to contact them an schedule appoinments. In general we were treated with alot of suspicion and any amount of effotrs we put in to get information did not work
<b>7.3 What does this organization most require to become more effective in general?</b>	We find it hard to make any conclusions
<b>7.4 Organization's overall monitoring: How do they measure outputs, track towards outcomes, and ultimately measure life-changing impact on the people served?</b>	We were informed that they had community interviewers ans an M&E tool, but did not have an opportunity to inerview any of them.
<b>7.5 Nonstandard accounting practices: Did anything suggest possible misuse of funds?</b>	Any quetions in the direction of finances recieved alot of resistance ad so we skiped that.
<b>7.6. What obstacles did you face working with this organization?</b>	We were treated with suspicion, kept in a little open room outside the offices. We were only allowed to visit the office as a last result, at the time , there was only one officer in charge of HIV/AIDS project who could not give information beyond what the CEO had given.
<b>7.7. What would you change about our evaluation process?</b>	The International office needed to make it very clear to the Kenya office the presence of the evalutotors and the seriousness of this whole excercise and give express instruction for the evaluators to have access to information. At Carolina for Kibera, the excercise did not recieve the seriousness it deserved.
