8. Wind stability by pouring water/ sand into the frame

9. Designed for appeal & night visibility

10. No ground anchoring suitable for urban setting

The WeatherHYDE social media campaign went viral in 2016 with 40 million hits

"This is innovation at its finest"  
- Ashton Kutcher, American Actor, Producer and investor

"For winters, [WeatherHYDE] is very nice. In summer, there is a net which can be opened."

- Khushi was homeless for 23 years and WeatherHYDE became her first home in January 2016.

The world's first reversible all-season family tent designed to save the lives of the homeless and vulnerable living in extreme weather.

### THE CHEAPEST HEAT SOURCE

The innovative use of a triple layered flysheet makes the weatherHYDE extremely suitable for cold climates. The reflective layer inside traps a family's body heat to keep them warm.

### PROVIDES PRIVACY FOR WOMEN

Our triple layer skin blocks light and doesn't cast embarrassing shadows. The fully enclosed weatherHYDE provides a safe haven for women.

### ADAPTS TO URBAN USE

The sturdy design allows weatherHYDE to be deployed in tough conditions. We added weight to the frame to eliminate need for anchoring. Reflective details and bright colors increase visibility and night safety.

Limitless Blue

Aurora Green

### FEATURES

- All-season, triple-wall construction
- Reversible skin
- Outer dark skin for heat absorption
- Inner mylar skin to reflect heat
- Removable doors on 2 ends
- Symmetrical free-standing design
