

Together We Rise London is a series of motivational speaking events, designed to inspire hope and aspirations to children suffering with PTSD, after the Grenfell fire disaster. Children from different schools will be united within these community based events, where popular guest speakers will share the ups and downs of their personal journeys to invigorate inspiration for success. These events will provide much needed emotional and mental well-being support for residents.

Our educational programmes will empower these young Londoners from disadvantaged backgrounds to acquire the skills and opportunities they need to secure employment, climb the career ladder and escape the threat of poverty. We will improve the emotional well-being of residents directly affected by the Grenfell tower disaster as well as those suffering from the rippling PTSD affects, through positive examples of life journeys demonstrating how to overcome adversity and ailing health problems.

The benefits will impact all local residents involved as we bring together participants, kin, celebrities and professionals, support charities, employment and accommodation agencies and community volunteers to work together to create local programmes that make real changes. The difference made to their lives is potentially transformational. The difference it will make to our community will be a significant contribution towards creating a more connected, functional society.

Workshops will include coding, money management, entrepreneurship and Lego therapy. They will consist of 10 children per each workshop. These costs will include:

Event co-ordinating and equipment costs	8 events @ £250 each	£2000
