Thank You!

During the fiscal year 2018, we have experienced a lot of love and beautiful memories with our beneficiaries and partners from the North to the South. We are proud to see that with our small number of staffs and very low budget, our projects have still spread a huge impact with the attempt to reduce the cost. 2018 is also the year we reached the most beneficiaries in our actions. This thanks to the trust developed over the last 20 years with our local partners and their personal investment for the best success and efficiency of our actions with the fund available.

Since 2001, AATVN reached **198,691** beneficiaries, including **5,579** Victims of trafficking, **62,288** prostituted teenagers and women and **29** of their daughters and sisters benefitting of special protection, **113,079** children and parents educated in prevention, **1,473** state officials and **16,243** beneficiaries of counselling and prevention-protection services.
