Rescue

OFOSA rescues animals from high kill shelters in California and all over the Northwest. We specialize in rescuing animals with treatable medical conditions that would otherwise be put to sleep.

Adoption

In 2017, we placed over 1,200 animals in their loving forever homes. We have an active adoption program through our many adoption partners PetSmart, PetCo, Fido's, and many others. In our 16 year history, over 16,200 animals have found their forever homes!

Transport

OFOSA works with other rescues to transport shelter animals from high kill shelters. Our transport program is mostly volunteer based with staff support.
