

Project Rhino is an association of like minded organisations facilitating rhino conservation interventions aimed at eliminating rhino poaching and securing the white and black rhino populations in South Africa. We recognize that the work in conserving and protecting rhinos from the threat of poaching is symbolic of the broader threat faced by all wildlife and that all wildlife will benefit from actions taken by Project Rhino.

# OUR RHINO NEED YOUR HELP:

An anti-poaching horse unit has been setup at Hluhluwe iMfolozi Park (HiP) to assist in the fight against wildlife crime. HiP is one of Ezemvelo KZN Wildlife’s flagship rhino reserves, a premier provincial game reserve in KwaZulu Natal. Project Rhino established this project with partners; 12 Hours and Ezemvelo KZN Wildlife. KwaZulu-Natal lost 222 rhino in 2017. Poaching methods are always changing, and so counter-poaching interventions need to be adapted, improved and implemented. One of the advantages of the horse unit is that they are able to patrol up to 30 km per day and they offer increased visibility to the rangers due to the height advantage.
