

Our domain, our defined space: Where is YOUR Happy Place?

Created by The American Immigrant Society -- 2018

Where is your happy place, the place where you, and the people you surround yourself with, **feel at peace** and are united with respect, love, comfort, and joy?

Join the **revolution**, join the powerful wave of **85 Million Americans who are either immigrants or first generation born**, one quarter of the population of the nation.

When you become our annual member as a **Home Port** (HP) member, the American Immigrant Society gives you that happy place, that **universal home** for your ethnic family, your culture community, your neighborhood, your religion, your life. We provide you with a powerful and friendly concentrated version of a new community connection platform, much better than your Facebook or other social media platforms. We let you truly connect with your roots and those around you who share your roots.

We can give you personalized menus of your favorite topics to discover more deeply, whether it is everything you wanted to know about Diwali, or Hannukah, or Ramadan, or Nevruz, or Three Kings Day. Or, whether it is how to find the best Colombian cuisine in your neighborhood, or how to make an empanada in 12 minutes, or how to create and cook a shish kebab. Or, whether it is finding out how vibrant the Vietnamese ethnic community is in Atlanta, Georgia or in Nashville, Tennessee. And on and on.

We give you easy to understand visual tutorials on how to get a driver's license, on how to register to vote, on how to file a complaint with your municipality, all explained to you in the language of your choice.

Home Port (HP) brings together loads of free and useful information which typically would take you hours to surf the web to find. We will even give you free e-books, for example on how to create your own ethnic, cultural, or faith-based Instagram account and therefore become one of our members who is followed "religiously" by our membership!

We connect you to existing, curated, intelligent websites and webinars giving you opportunities that would take you forever to find on the web, to engage with other members through live seminars, webinars, forums, and chat rooms. You get **insider access** to the **treasure trove** of the inherent knowledge base of your fellow immigrant citizens and their parents and their grandparents, thus continually and organically expanding the virtual and powerful sense of **community and comfort and confidence** in our secure sanctuary place.

Besides access to the most up to date information for "**The Immigrant Nation**", we also provide members with discounts of up to 50% off subscription prices on many services and resources. As an example, you will get a customized Spotify account at a deep discount, which will help you create unique playlists of all your favorite music of any

ethnicity, any culture, any country in the world. Another example, you will get a deeply discounted language learning service that will help you learn English faster, from 12 other languages, than any other service you may have seen, and you will receive shopping coupons for completing those English courses.

Our HP and its up-to-date information about any place anywhere in the nation make us an **indispensable site** for any immigrant family **looking to relocate** from one part of the nation to another. Our **Home Port** can give you invaluable advice about a potential destination city before you make the move, and can also make you feel at home in your culture the minute you arrive at your new home.

You can ease your way into discovering this amazing resource by signing up for a free three-month membership, which will convert to a full year's membership at the incredibly compelling "**Revolutionary Price**" of only \$17.76 for the entire next 12 months! And your membership fee goes to a charitable tax-exempt institution, so you will feel that you are doing good while getting an amazing resource for an incredible price.

This is **The Home Port**, your home, our home, we all live and thrive here. Be part of it and you will also thrive.

The Exponential Developments in Technology, Internet, Smartphones, and Cell Service that will accelerate the adoption of **The Home Port**:

- 1) Google is pushing to change web standards to adopt its own blazing fast Accelerated Mobile Pages (AMP) technology which will mean lightning fast web page access.
- 2) Samsung S9+ and Apple X smartphones are anticipating massively fast data and web retrieval, and have created fast devices with huge storage capabilities.
- 3) Samsung has gone a step further and created the dock which seamlessly connects the S9+ to any monitor, thereby becoming a de facto computer.
- 4) Major mobile telecom companies around the world are preparing to launch 5G Network service by 2020, only 18 months away, unleashing up to 100 Gigabit connection speeds.
- 5) Smartphones by 2022 will themselves be truly "smart" with built-in machine learning.
- 6) VR and AR sets will become sleek, slim, and lightweight, and will integrate via Bluetooth (just like wireless speakers) to smartphones to provide rich textural connections.
