VOLCÁN DE FUEGO [EMERGENCY]

GENERAL INFORMATION

CONRED*

- Volcán de Fuego in San Juan Alotenango is 35 km away from the capital's downtown.
- Most affected areas: Chimaltenango, Escuintla y Sacatepéquez.
- Official statistics up to June 13th:
 - +100** pronounced dead
 - +50** injured
 - +197** disappeared/missing
 - 12.823** people evacuated
 - +1,7 millones** people affected
 - 4.137** people in shelters

STATE OF CALAMITY and RED ALERT declared

**+ 950 FAMILIES IN NEED OF
RELOCATION**

A group of people are working on building a wooden structure, likely a house or a community center, in a community setting. The structure is made of light-colored wood and is being built on a raised platform. One person is on the roof, another is on a ladder, and others are on the ground. The background shows other buildings and a clear blue sky.

OUR EXPERIENCE
IN EMERGENCIES

IN A STATE OF EMERGENCY

5,202 HOUSING UNITS BUILT
IN 10 YEARS

+150 COMUNITY LEADERS
WORKING WITH THE ORGANIZATION

+20,000 VOLUNTEERS
INVOLVED IN DIFFERENT ACTIVITIES

OUR RESPONSE

HABITAT AND HOUSING PROPOSAL

STAGES OF EMERGENCY RESPONSE

For TECHO, the **interests of the affected families as well as those of the communities as a whole are at the heart and center of our work**. The response to this emergency is no exception, and the way we plan to execute it consists of:

1. Community Information Survey [Conducted by Volunteers, Allied Organizations and Neighbors]
2. Creation of Inventory and Database of Communities.
3. Prioritization of Communities based on data
4. Collection of Family Information.
5. Validation and Assignment of Beneficiary Families.
6. Signing of Construction Commitments
7. Community and Individual Workshops for Beneficiaries
8. Construction [Between a month and a half to two months of response]
9. Subsequent Evaluation.

RESPONSE PLAN

1 Gathering of information

With the endorsement of CONRED and the Social Department of the First Lady (SOSEP), TECHO will continue working on the collection and classification of information for the creation of the final report on the situation.

2 Temporary Housing Module

TECHO will manage and execute the construction of 250 TEMPORARY HOUSING MODULES, that will serve 1000 families. These will have the objective of housing families during the permanent relocation process.

3 Social Management for Permanent Relocation

Management and execution of the "Comunidad Fénix" project. This project seeks to generate a comprehensive and permanent community for the 1,000 families in a temporary housing situation.

TECHO will be in charge of the social management of the relocation of the families, in the Finca La Industria, taking a close process with the neighbors.

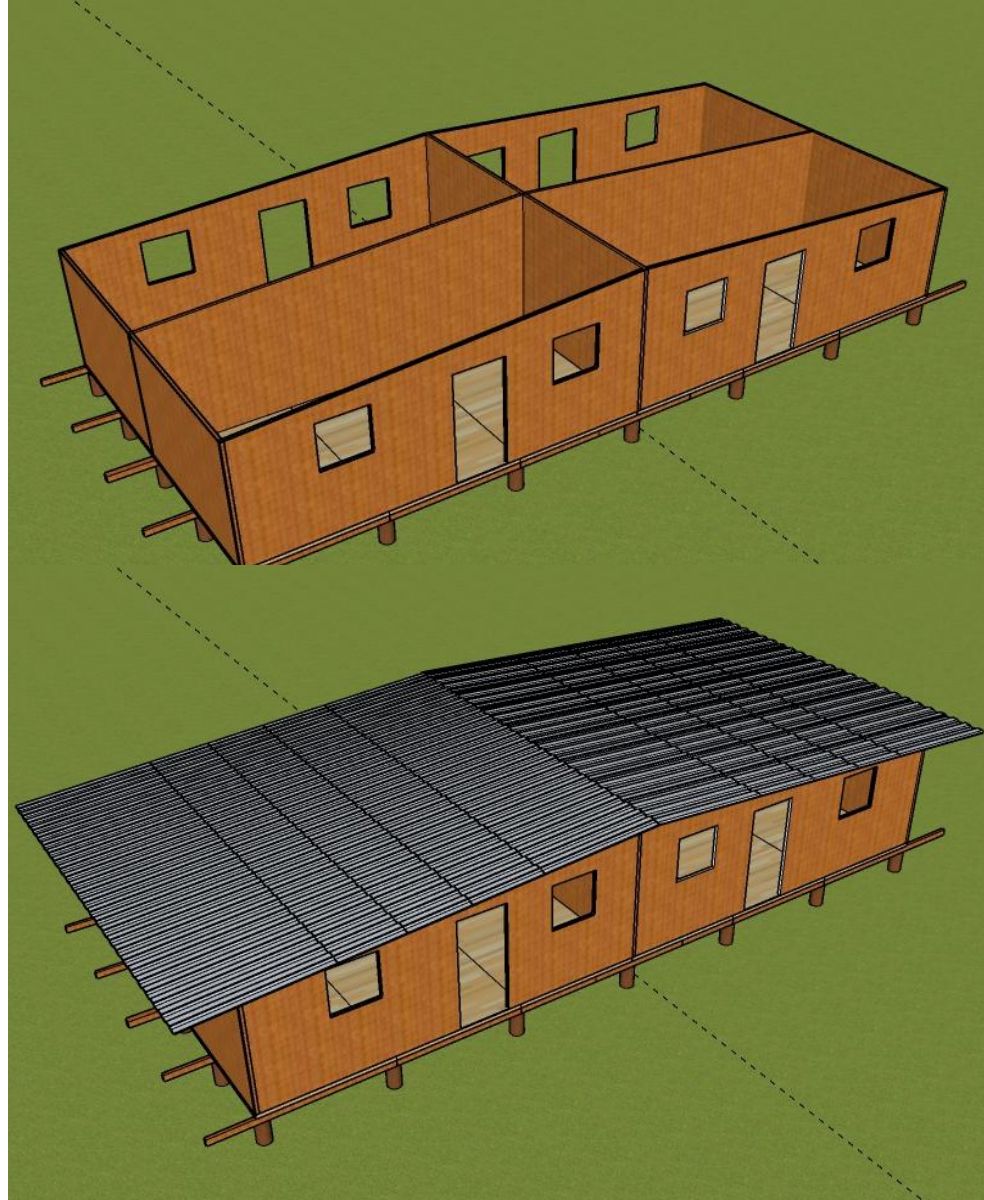

4 Audit

In order to guarantee the welfare of the families, and aiming to making them a part of the organization of the permanent project, a CITIZENS AUDIT will be executed with the intention of making all the project's parts transparent.

TEMPORARY HOUSING MODULE

The conditions that the families currently face in the shelters are unfavorable, which is why TECHO seeks to implement its experience in emergencies by proposing the construction of Temporary Housing Modules.

TEMPORARY HOUSING MODULE PROPOSAL

- Total general area: 72 mt²
- Area per family: 18m²
- Families in shelter: 4
- Construction time: 3 days
- Volunteers needed/mobilized per unit: 10

SOCIAL INVESTMENT

USD 5.210/per shelter

A group of young people, including men and women, are huddled together in front of a wooden wall. They are all smiling and looking towards the center of the group. The scene is outdoors, with a wooden structure and some greenery with pink flowers visible in the background. The text "¡LET'S REBUILD GUATEMALA TOGETHER!" is overlaid in white, bold, sans-serif font across the middle of the image.

**¡LET'S REBUILD GUATEMALA
TOGETHER!**
