## What is SCOUTS?

Scouts started in England in 1907 and has been exported from Britain to South Africa and around the world, currently there is in excess 26million people involved in this amazing life skills development project. Scouts is the vehicle we use overall to broaden the children's experiences, with sound morals and values woven throughout the program. The aim of the program is to assist children to grow holistically (body, soul and spirit) and to enable the child to see themselves as an important component of their community and South Africa. Children have a role to play in building their local communities as role models for other children and also as leaders for the future. We target specifically however not exclusively children who are orphaned or vulnerable through life experiences. Currently we have over 2,000 children meeting together on a weekly basis through out Greater Tzaneen in 40 different villages.

## Who are WE?

Keep The Dream196 is a Children's Rights Based Non Governmental Organization based in Mopani District that has been operating essentially since 2003 in Greater Tzaneen. We have a passion for children and to see children become all they dream they can be. Primarily we work through Community Based Organizations training their Caregivers to support all children within their communities with a myriad of skills and practical support. The children are invited to join Scouts a life skills development program which starts at the age of 5yrs and continues for life. The program offers age appropriate skills, personal and interpersonal skills development including leadership, team building, self esteem and resilience promotion.

## What do we DO?

Through sponsorship we are able to take children away camping, hiking, learning new skills such as team building, problem solving as well as HIV/AIDS education, drama training, food security and vegetable garden building, environmental health, First Aid Training to name a few activities. The emphasis is on building the child holistically to face the challenges life will bring in a supportive and encouraging environment.
