

Global Giving Report – March 2021

IAHV Climate Action Now (CAN)

Our Impact in numbers: to be notified in a supplementary report in April '21

16th March 2021 - As of our last report in October 2021, we and our partner organisations had planted a total of **338,041** new trees. This will be further boosted by an outward funding scheduled for later this month. An updated number of trees, employment generated thus far, and tonnage of CO2 offset is scheduled to be published within 4 weeks' time from now. Meanwhile, in this report we bring to you pictures and two short videos from our ground partner [Eden Reforestation Projects](#). Besides, we are glad to announce IAHV's Corporate partnership with [The Bamboovement](#) and [Searce.com](#). And finally, your invitation to an exciting 'online tour' of the rich heritage of Indonesia (in March and April), is also included. There would more events through the year 2021 to five other nations across Asia!

The IAHV Climate Action Now project offers the opportunity for you, your family and for businesses to offset carbon footprint via Eden Reforestation Project - amongst the world's most cost-efficient program. Reducing the carbon footprint is not only our responsibility but also the necessity in the current deterioration of environment and biodiversity.

Two short videos from the ground:

Our Partners Eden Reforestations have an effective Forest Monitoring and Verification Methodologies being used during the tree plantations. Watch by [clicking here](#) or on the picture below.

Year 2020 brought us new challenges and fantastic growth opportunity to mitigate climate action changes as we entered new countries: Kenya, Honduras, and Nicaragua in our Journey. Watch by [clicking here](#) or on the picture below.

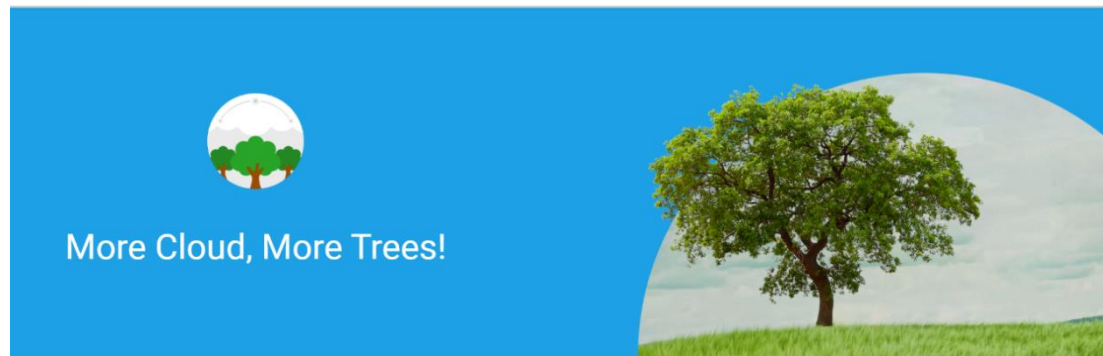

New CSR Partnerships:

We are extremely delighted to announce that we have 2 new distinguished **CSR partners** joined with us from **UK and Netherlands** in last few months for IAHV Climate Action Now Projects to make an impact. These CSR partners are inspired and aligned in values and the goal to work towards mitigating the impact of climate changes.

- **Searce UK and Ireland:** Searce will be funding planting of 1000 new trees for every new client that they onboard in the UK and Ireland region. We value this 'Green Collaboration' through which Searce's Google Cloud clients can reach sustainability goals faster as Google not only plans to further increase its renewable energy efforts but also minimise the amount of energy it needs to use in the first place.

Read more: <https://www.searce.com/green-cloud-initiative>

- **The Bamboovement, Holland:** Joshua and Marco, founders of The Bamboovement.com have extended their social entrepreneurship energy to team up with IAHV Climate Action Now and have already committed planting of 6100 trees for the period October to December 2020.

THEY SAY, "By planting trees, we aim to offer carbon-neutral, and eventually carbon-negative, products by 2022. Carbon-negative products are climate positive, as more CO2 is stored than their production process requires. To do our part in restoring precious forests, we aim to plant over 50,000 trees in 2021".

Read more about their 'Double Sustainable Initiative – 'Switch to Plastic-free and Plant a tree' here: <https://thebamboovement.com/tree-planting/>

IAHV ACTivity Event: Live Tourism and Cook- along across 6 countries.

IAHV ACTivity welcomes you to join *Celebrity Chef Seema Bhatia* live to learn to cook delectable Indonesian cuisine, while enjoying live Tour of world-famous sites in Jakarta and Bali by charming *Tour guides Panji and William*.

This unique experience brings you to learn the rich and diversified world heritage on the comfort of your home.

Each main event day ticket plants **90 new trees** to reverse global warming.

Aha!! Don't forget your friends - they get **HALF price!** And you can refer any numbers of your friends for this amazing deal!

You can't miss this! Book your seats at bit.ly/IndonesiaLive
