

Helping families rebuild their homes after the fires in Athens

Project Overview

This project aims to help low income families rebuild their primary residence which was damaged by the fire of June 23rd provided that they have all the necessary legal permits.

WNB will issue a call for applications to those who meet the above criteria.

We will contact local companies that can provide discounts to building materials so that we can help as many families as possible with the available funds.

The building materials will be bought according to the needs of each family by WNB.

The owners will have to provide access to WNB to photograph the work that will be done using the allocated funds.

Budget

Building Materials: \$30,000

Administration & Communication Costs: \$ 8,500

Legal Costs: \$ 1,100

Transportation Costs: \$ 400

Project Duration: 5 months

The organization

We Need Books is a non profit organization based in Athens. Our main goal is to use books and multilingual libraries for integration of migrants and refugees to Greek society and as a tool for achieving social cohesion. We are currently running three programs.

In the face of this recent tragedy we decided to use our skills and resources to help those affected.
