

Wheelchair Fund

My name is Alin and I am 32 years old. Five years ago, following an accident, I could not walk and had to start using a wheelchair. The days after the accident are hard to put into words. I was disoriented and I felt totally helpless. Basic activities that seemed trivial before, like crossing a threshold, were now impossible to do using a wheelchair.

After a while, I realized that life goes on and that I needed guidance from someone who went through a similar experience and could understand what I felt. This was how I met Motivation and attended their active rehabilitation camp. Their trainers, who are wheelchair users themselves, helped me regain my independence. At the camp, I discovered I was not alone. I learned that the wheelchair was but a means for moving around and that what's most important is the person using it. This helped me change the way I was looking at my situation – I understood that I need to focus on my abilities and bring forth what I am as a person.

Later, I was given the opportunity to become part of Team Motivation in Sibiu. Here, I can use my experience to help those who, just like me, want to improve their lives and regain their independence. Now I am an independent living trainer and this, for me, is more than just a job. I do my work with passion and with the desire to convey a state of mind.

Life is like riding a bicycle – to keep your balance you need to spin the wheels, and that is what we do, at Motivation. We promote abilities and we help each individual regain an active role in the community.

Dear Friend of Motivation,

In 2017, with help from our sponsors, the trainers in Team Motivation gave back self-confidence and hope for independent living to over 4,000 Romanians with disabilities.

In 2018, Motivation continues to Spin the Wheels of Change. We aim to consolidate the Wheelchair Fund, which enables us to donate, year after year, over 1,000 quality wheelchairs to individuals with mobility disabilities living all over Romania.

The financial support of each company and the donation of each Motivation friend enable us to increase the number of wheelchairs donated annually to those who need them to break isolation. The Fund can also support employees of member companies, who may need, whether temporarily or permanently, a mobility equipment for their family member.

Every 100 EUR donated to the Wheelchair Fund give back mobility to a person using a wheelchair!

Friends of Motivation who wish to join us can choose between several ways of contributing to our initiative. Any choice you make brings us closer to independent living for wheelchair users. Your sponsorship can be deducted from the company`s profit tax, according to the Fiscal Code.

My colleague, Monica Tăutul, is available to help you participate in this project. Please contact her at m.tautul@motivation.ro or by phone: 0730.190.927. We hope you will join Motivation Romania Foundation in giving back freedom of movement for wheelchair users in Romania.

Together we keep Spinning the Wheels of Change!

VISIONARY 10,000 EUR

- 85 persons with disabilities receive wheelchairs with the company logo
- 10 athletes represent the company at Bucharest Marathon
- 2 press releases with thanks to the company
- 1 meeting with wheelchair recipients
- Samples of company products in the wheelchair users kit
- Other personalized benefits
