Capital Campaign for South Asian Community Home (SACH)

ABOUT INDIA HOME

India Home is a non-profit organization dedicated to addressing the needs of the larger South Asian senior citizen immigrant community. Started in 2007 by a group of healthcare professionals, India Home provides social, psychological, recreational, and spiritual services in a culturally sensitive environment.

The mission of India Home is to improve the quality of South Asian older adults in a culturally sensitive environment.

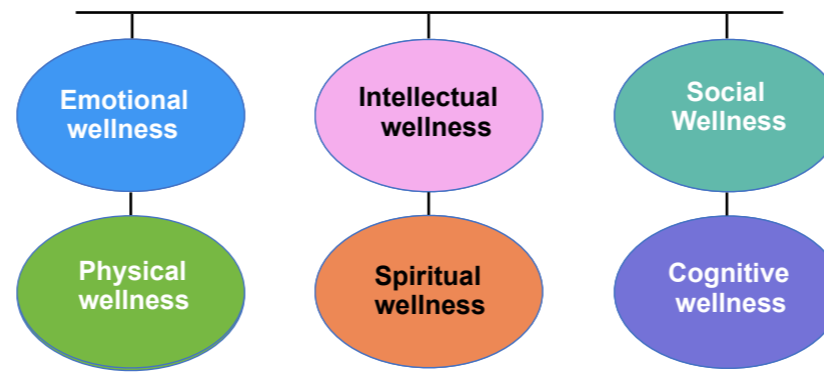

Through our senior center programs, recreational activities, health and wellness programs, case management services, advocacy and awareness campaigns, we are reaching some of the most socially and physically isolated older adults. We deliver these programs through committed collaborations with existing senior centers, faith-based institutions, community-based organizations, government programs and university partnerships.

Since we began in 2008, we have served over 3,000 older adults from all different faiths, nationalities and linguistic groups. We currently serve over 200 individual older adults a week across five locations in Queens, New York.

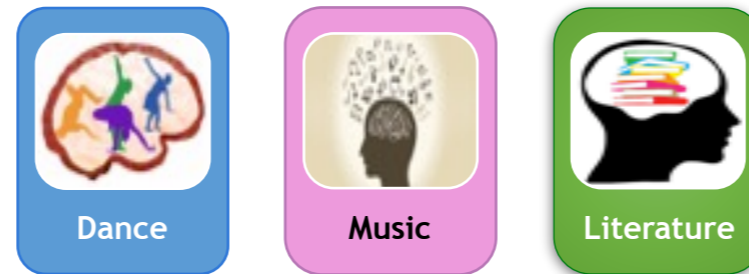

Our pioneering work has been recognized by AARP, New York City Council, New York State Assembly, community-based organizations, and many others. We have been featured in the New York Times, Huffington Post, NBC Asian America, National Public Radio and other prestigious media outlets.
