

MARCH 2020 – REPORT EMPOWER COLOMBIAN LEADERS THROUGH HIGHER EDUCATION

by Fundación Juan Pablo Gutiérrez Cáceres

Hi, my name is Parmenio Agudelo and I am a happy father, since my daughter is the beneficiary of a scholarship for one specialization of Project Management at the University Uniminuto, in partnership with the Fundación Juan Pablo Gutiérrez Cáceres and Los Coches, the company I work for as Logistics and Enlistment Coordinator of the used department since 1980.

Beneficiary
Laura Marcela Agudelo
Project Management Specialization
University Corporation God's Minute

With my daughter Laura

One day an information arrived by mail, it was for a scholarship, I read the requirements and thought that my daughter could achieve it. I called her and asked her to review the information to access the scholarship, and then she sent the application.

With my daughter Laura and my wife Graciela

We received the news that she had been chosen. An email came to my daughter and I was informed at work. It was really news that we received with much joy and gratitude.

This is a wonderful opportunity. That my daughter can specialize professionally, is another dream fulfilled for us as a family.

Celebrating Christmas with my family

This scholarship represents a professional and personal growth for my daughter. I congratulate the Fundación JPGC for the work and I hope that as beneficiaries we can find a way to support it in the future.

We are very grateful for our daughter's scholarship and that the Foundation can continue to help many others who don't have the resources to continue studying and move forward.

I tell all allies and donors that their contributions are something that makes these young beneficiaries great, it is something that really helps so that many young people continue to fulfill their dreams.
