

MARCH 2019 – REPORT EMPOWER COLOMBIAN LEADERS THROUGH HIGHER EDUCATION

by Fundación Juan Pablo
Gutiérrez Cáceres

Education for Colombia

Fundación Juan Pablo Gutiérrez Cáceres

Help to build a better future together!

All the population have the privilege of studying at many countries, however in Colombia most people don't have the opportunity to continue their studies and thus are not able to improve their quality of life and help others. That's why we are a foundation that bets on those young leaders who want to help their communities .

We have been believing for **12 years** that education can make a difference.

Little by Little

Fundación Juan Pablo Gutiérrez Cáceres

We participate in the GlobalGiving Little by Little Matching Campaign.

— — — — —

We started to create a strategy two weeks before the campaign, we invited our closest friends and allies to participate in our campaign. We send emails and we also communicate before and during the event so that donors can join our cause. The result was \$180 from a total of 7 donors and a contribution of \$84 by GlobalGiving..

Rank*	Project	Donations	Donors▼	+	Matching	=	Total
268	Empower Colombian leaders through higher education	\$180	7	+	\$84	=	\$264

New selection processes

Fundación Juan Pablo Gutiérrez Cáceres

New scholarships:

The resources raised by the Foundation through the different activities carried out during the year will allow financing part of the scholarships for young people with limited resources in Colombia so that they can realize their dream of studying their postgraduate studies.

In the months of June, July and August will be carried out the processes of selection of young people who aspire to begin studies in the second semester of 2019.

In total, 48 scholarships are expected to be delivered to the following universities in the country:

- Universidad Javeriana
- Universidad Nacional
- Universidad El Rosario
- CESA
- CES
- Escuela de Ingeniería de Antioquia
- EAFIT
- Católica de Oriente
- Instituto Tecnológico Metropolitano-ITM
- Universidad del Norte
- CIDER-Universidad del Norte

New selection processes

Fundación Juan Pablo Gutiérrez Cáceres

We continue to contribute

For more scholarships

In addition to the new scholarships, it is expected to renew the scholarships of 41 students who are currently advancing their studies and continue studying next semester.

To date, 384 scholarships have been awarded and another 41 are expected to be delivered next semester. They have already graduated 249.

In Colombia, out of 100 high school graduates, only 48 have access to universities, and 45% of those quit their studies. Only 6% of the students in universities correspond to master's and PhD students.

Thanks for helping us

Fundación Juan Pablo Gutiérrez Cáceres

We still need your support!

With our partnerships with universities, companies and a lot of effort, we've managed to impact the lives of 384 students, who work very hard to carry out projects that have a real social impact in their communities. However, we still need all the possible help to continue putting our two cents to achieve a better country through education and the desire of our social leaders to go further.
