

EMPOWER COLOMBIAN LEADERS
THROUGH HIGHER EDUCATION

Thanks for your support!

Listen to our beneficiaries!

By donating you make a dream come true, an illusion, a wish of a person who gets up every day, fights, works hard to get ahead and contributes to their communities to have a better world.

Dania Díaz

Master in Communication Scholarship Student 2012

For me, the scholarship gave me the opportunity to contribute to my community and to carry out projects in which I have been able to teach others, motivating them to think and act differently for the benefit of people.

Today I can tell you that I have contributed to women's collective groups, to schools for indigenous children, to high school students and to future professionals in a gratifying and committed way.

Studying for a post-graduate degree has been one of the best experiences of my life because it allowed me to learn and confirm that I can work for others.

Andrés Restrepo

Master in Education
Scholarship Student 2019

Thanks to this opportunity, I have been able to positively impact the rural school where I currently work as a teacher.

My purpose is to promote educational spaces in a way designed by and for the community.

This process of support from the Foundation has allowed me to develop new skills, improve my quality of life and that of my family. So, as a scholarship beneficiary, I consider that actions like donations for education are highly valuable and positive.

I am a faithful witness that this project is real. Day by day I try to positively impact the lives of my students and thanks to my knowledge, I have better teaching tools.

Carolina Cachetá

Master in Agricultural Sciences Scholarship Student 2015

Thanks to my master's degree I developed skills in the formulation, management and execution of productive, agricultural and rural projects that have benefited many farmers and indigenous communities in remote areas affected by the internal conflict in Colombia.

For me, doing the postgraduate degree gave me the ability to learn new tools and knowledge to formulate new projects and allowed me to advise and contribute to many farmers in the country so that they can improve their agricultural practices.

Without the Foundation's scholarship I would not have been able to access this level of training.

Bismark Salas

Specialization in Social Services Management Scholarship Student 2020

I always wished to continue studying and the Foundation brought me that opportunity. Thanks to this, I have been able to bring to the children the love for the traditional dances of Chocó, with the objective of safeguarding and empowering the cultural values of my region.

I still have the dream of continuing to advance as a professional; I try to always have that conviction with me, that faith, that confidence that you can achieve what you want.

With the postgraduate program the Foundation changed my life, demonstrating to my community that, through dance, nothing is impossible.

Your donation is a multiplier of hope!

Thank you for donating!

You are betting on improving the quality of life of a young Colombian leader who will become a promoter of knowledge, positively influencing the lives of others.

Why keep supporting us?

We still need all the possible help to continue putting our two cents to achieve a better country through education and the desire of our social leaders to go further.
