# A NEW YEAR

## A new goal to achieve

The pandemic makes our work for the education of Colombia more difficult, since there are many essential projects that should be a priority, however with your support we continue our work. Because we believe that in the future our young people will be able to contribute to the development of our country with their knowledge in various academic areas.

## What's new this year

This year we are looking for alliances with companies and universities to continue betting on education in Colombia, however we still need all the help possible with donations from people with a good heart, like you, since they have a great impact on the scope of our scholarships.

It is important to continue believing in our young people and in their social projects, which change lives through knowledge. Our youth are not only the future, they are the present.

04

## What happened last year?

We were happy to see 41 young graduates from the best universities in the country and with good grades.

We have reached a total of 474 scholarships since we started our work in Colombia since 2007, and distributed in the 5 regions of our country.
