ChildAid to Eastern Europe is a company limited by guarantee, registered in England and Wales under number 1511367 and as a registered charity, number 281099

Who we are

ChildAid transforms the lives of abandoned babies, children living in vulnerable families, orphans and children living with disabilities in Belarus, Moldova, Russia and Ukraine. We achieve this by working with our local partners.

What we do

- Providing **security, love and care** for abandoned babies whilst working to prevent abandonment
- Multi-disciplinary **therapies** for children living with disabilities
- **Empowering** children and young people to be fully engaged in their communities
- Providing places of **refuge, fellowship and childhood** for children living in vulnerable families
- **Education, training and skills** for orphans leaving institutions as well as additional support for those still in care or mainstream schooling
- Residential **foster homes** for orphans
- **Social welfare** and material aid for the most vulnerable families

Another key element of our work is to cultivate the **spiritual wellbeing** of children and families. But the practical help we give is *entirely unconditional* and is never contingent on or restricted by whether a child or family has a faith or not.

Rescuing Brigitte

Brigitte's mother sold her for £4 into a life of crime and prostitution. Rescued and living as a foster child with ChildAid's partners she learnt to live independently, to have a loving, caring family, and to have a future secure in hope and opportunity. Her new found faith

A Life for Lazar

Following a car accident in Moldova, Lazar suffered paralysis and epilepsy. Extensive and free physio, occupational and music therapy has helped Lazar attend nursery, be calm and play with other children. Children born with disabilities receive the same life transforming treatments. At our partner's rehabilitation

Lena's tears

In war-torn eastern Ukraine Lena lived with her four children and on an income of £55 a month and on what they could grow. ChildAid provided seeds, chicks, nappies and food parcels. Lena broke down and wept upon receiving this life-line.

PREVENTING TRAFFICKING

AT CHILDAID WE ARE STRIVING TO SEE THE END OF THE ILLEGAL TRAFFICKING OF CHILDREN FROM EASTERN EUROPE. HERE'S HOW WE HELP:

FOSTERING

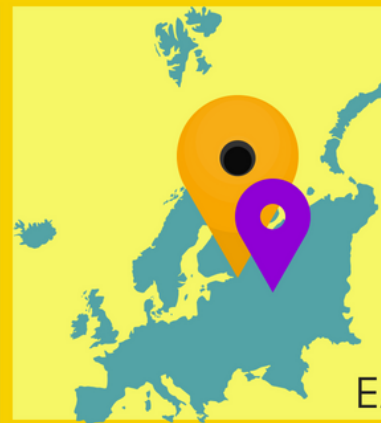

A safe
loving
home

Bringing
children out
of state care

Hope
for the
future

EDUCATING
CHILDREN AND
HELPING
VULNERABLE
FAMILIES IN
EASTERN EUROPE

Encouraging UK communities to
look for the signs for brothels and
work houses where some of these
children end up

ORPHANS IN UKRAINE FACTS

ORPHANS

WE WANT TO HELP MORE CHILDREN

THE NUMBERS

There are [more than] 100,000 orphans in Ukraine.

CRIME AND PROSTITUTION

60-70% of Ukrainian orphans may become involved in prostitution and organized crime)

DISABLED CHILDREN

Every three days an orphan with a disability dies, usually, because they don't get the necessary medical attention.

SEPERATION

State-run orphanages are divided by age which means that siblings are separated.

DANGER

Children in orphanages and crisis centers continue to be particularly vulnerable to trafficking within Ukraine.

NO FUTURE

Only 5% of households ready for adoption are OK with taking children over 12 years of age.
