

Message from the HQ

TO All Zonal Directors, General Counsel, Focus Groups: November 13, 2020

GREETINGS Good People! Hope this message will meet you all in good spirit and health. Read, study this information, and send us your feedback about the Credit Union (CU). See attached from our JRCCA Barrister and extend a hand of Love, educate all our Children, youths, students, women, girls, and boys as they are our future, our walking stick, next generation! Many Thanks to all Volunteers for what we do to create jobs and employment opportunities in our Communities both in Cameroon, Africa and in the United States of America!

1. The Zone Directors will be the key people in making the CU concept work and available to all Zones.
2. The JRCCA Team should have a CU Committee made up of representatives from the Zones.
3. Credit Union personnel should follow the same standards as proposed in the attachment from the Barrister.
4. The JRCCA CU committee should be responsible for recruiting members in each Zone and clearly making these services available to people in each Zone right down to all indigenous people all all the 5 zones that we serve
5. CU Committee can assume responsibility for helping members to provide some service or etc to raise the necessary funds for membership in the CU.
6. They should brainstorm idea for raising funds to help with membership fees. Membership in the CU is important as it will help the people to qualify for small loans, grants, etc. which will help them to become independent.
7. Zone Directors should provide these leadership classes and training asap.

In brief, JRFIUSA should immediately provide the Zone Directors with this leadership training asap! Sustainable AWARENESS, Education, leadership Training Vision of the Founding Father is if you love my people teach them how to fish and don't only give them fish , you feed them for life" PA John A.Ticha

THANK YOU!!
