

International Association for Hospice and Palliative Care (IAHPC) Library Access to Hospice Care Workers Worldwide

The goal of this program is to increase:

1. [Access to online of full text articles](#) from leading palliative care journals to hospice and palliative care workers worldwide. This including the following palliative care journals:
 - Palliative Medicine
 - Journal of Palliative Medicine
 - Journal of Pain and Palliative Care Pharmacotherapy
 - Progress in Palliative Care Indian Journal of Palliative Care
 - And many others, such as:
 - Addiction
 - American Journal of Bioethics
 - American Journal of Public Health
 - BMC Nursing
 - Bulletin of the World Health Organization
 - European Journal of Public Health
 - Wounds International,
2. [Pallipedia](#), a palliative care specialized online dictionary to improve palliative care knowledge and resources for the global community.
3. Over 500 palliative care / hospice [book reviews](#) by Dr. Roger Woodruff, IAHPC Reviews Editor. The IAHPC believes professional book reviews provides a critical review of books that benefit palliative care / hospice workers so they can remain up to date on treatment options, national and international policies, and well as social effects of palliative care / hospice.
