+9,500 CHILDREN

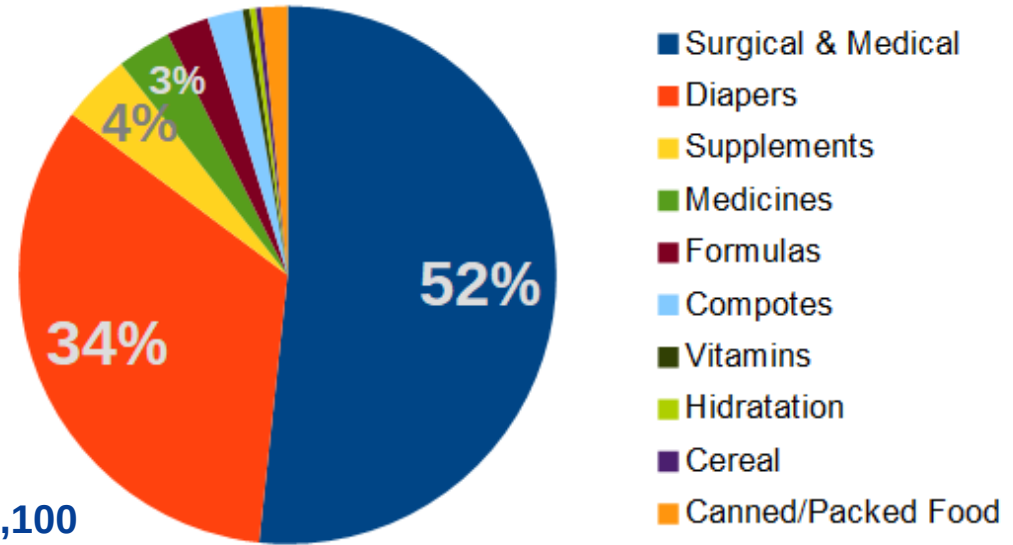

2019 1H RESULTS

As of July , FRIENDS have managed to send 24 shipments, 18 of them by sea. Some air shipments responded to the need for urgent supplies such as medicines for specific treatments.

- ✓ **+34,000 units of Surgical & Medical from +170 different items.**
- ✓ **+22,000 diapers**
- ✓ **+2,700 supplements**
- ✓ **+1,700 formulas**
- ✓ **+1,400 compotes**
- ✓ **+280 bottles of vitamins**
- ✓ **+ 80 different types of medicines, representing +2,100 units from general conditions to specific treatments...**

Jan - July

Hundreds of individuals, families, children, local schools, employees from corporations such as Bank of America, Pharmaceuticals such as New Pharma Inc., and organizations such as Abraham Foundation, among many others, have played a key role this 1st half of the year to ensure nutritional meals, supplies, and the medical attention to thousands of newborns and children in Venezuela..

REPORTS, ALLIANCES, OPERATIONS...

We deeply thank everyone for supporting FRIENDS' mission. **When a whole country is under an humanitarian crisis, this becomes everyone's mission and collaboration is critical.** We know we are your hands and eyes in Venezuela. You trust us when ensuring your donation not only reaches its final destination but also has a positive, direct impact on thousands of families, new borns and children.

We are thankful for our partners, the alliances achieved, and support from many individuals and organizations.

Therefore, reporting back to our donors and being transparent on the way we work, our inventory management system in place, and the monitoring of our shipments, is also part of our job.

WHAT'S NEXT?

Giving season is coming and we are ready!

- We not only monitor very closely the overall situation in Venezuela but also receive first-hand information from our local teams, including that working at the pediatric hospital Jorge Lizarraga.
- Our real-time inventory management system is in place and gives us a clear reading on the stock levels and coverage of each item or category in storage in Miami and Venezuela.
- We have shipments on transit and under preparation. Every month, we continue shipping pallets of supplies that both respond to specific needs and ensure proper stock levels of regular items.
- We continue reporting back to you and current partners, as we develop new alliances and obtain more validation and support from major organizations in the industry. Our hard work, your support and trust are paying off!
- We will continue with our drives and events! Our 2H plan is strong!

Your donations!

We need funds for our meal programs affected by +1M% inflation and to buy large quantities of medicines, surgical and medical supplies that are not normally donated by individuals.

We have now major alliances that allow us to buy these supplies at very discounted prices, thus maximizing your funds!
