Dear Friends,

The students of Sevikashram are having their days full of activities apart from studies which is contributing to their personality development. We are grateful to all our supporters for encouraging us to do our best.

150th Gandhi Jayanthi Celebrations:

Sevikashram students always are happy participating in cultural fest and never miss a opportunity to showcase their talent. Our children participated in cultural program organised on the occasion of 150th Gandhi Jayanthi celebration in Gandhigram and presented Shiva Parvathy Dance based on mythology.

Facilitating the Rank Holders:

While the students fun and enjoy dancing in various programs, studies are also taken seriously. The students are often motivated to perform well in academics by facilitating the toppers of the X and XII grades.

Kitchen Gardening:

The students started a new activity this academic year and took charge of a abandoned greenhouse to grow vegetables for their kitchen. The organic vegetables gave the children nutritious diet as well as they learnt the finer points of cultivating vegetables organically by using bio pesticides and manure.

Navrathri Festival Celebration:

The children eagerly wait for any festival when they enjoy doing all the preparations and savour the sweets. The children get integrated with the culture and tradition of the land so that they learn the values of life. During the navarathri festival, they enjoyed decorating the Kolu – the dolls of Gods and attend to the puja.
