

**THE WORLD'S  
LEADING  
TECHNOLOGY  
FAIR FOR YOUNG  
PEOPLE**

Coolest Projects is a celebration of creativity and innovation where young people can showcase what they've made with technology. Part exhibition and competition, this free event brings together the innovators, engineers, and programmers of the future.

**SHARE YOUR PROJECT WITH THE WORLD**

# HOW TO GET READY FOR COOLEST PROJECTS

## 1 CHOOSE A PROJECT IDEA

Think about how you want to contribute to your community or express yourself creatively with technology. No idea is too small or too big!

## 2 GET STARTED

Meet up with a friend, assemble a team, or work on your own. Coolest Projects is all about making and sharing, so be sure to tell your friends to join you.

## 3 REGISTER YOUR PROJECT

Think up a project name, pick a parent or teacher to be your project guide, and register your project at **coolestprojects.org**.

## 4 TEST AND TWEAK

Check your code, make a poster about your project, and keep building.

## 5 SAVE THE DATE

Mark your calendar for March 23, and tell your school, friends, and family to come see you on the big day.

## 6 COOLEST PROJECTS

You did it — this is the day you get to share all your hard work, meet new friends, and have tons of fun!

**ALL SKILL LEVELS ARE WELCOME,  
AND ALL TYPES OF BUILDS ARE ENCOURAGED**
