

WHO WE ARE

Our vision is a world where those enslaved by human trafficking are restored over-comers flourishing within the wider community.

WHAT WE DO

We provide a tailored restoration program within a safe housing environment to under-aged victims of human trafficking.

WHY IT MATTERS

Human Trafficking is happening in our cities, and those that are victimized need our help to get a second chance at a life where their freedom is restored.

HANDS UNITED

We strive to uphold the values of sustainability, personalized stewardship, and collaboration

Our approach

Our case management service allows us to provide a tailored restoration journey for each resident. Equipping individuals with specialized skills and resources enables them to live full, autonomous lives.

Collaboration

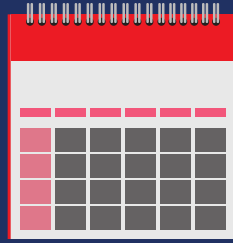

The most effective way to achieve our goal is to, first and foremost, JOIN hands with local organizations and block this social atrocity as a united front. We don't want to recreate the wheel, but instead strengthen it by filling in the gaps where needed.

Family Unit

Individuals that have experienced any classification of trauma have a higher rehabilitation success rate when they have a committed family support system. One of our priorities is to place graduates into a family unit with a gradual union alongside group counseling.

Holistic program

Our program is structured around a holistic view, restoring the psychological, physical, social, and emotional well-being of the residents.

2 year program

4 phases with designated milestones

Residential environment

Offer housing for girls and boys that have been enslaved by human trafficking.

Self-sustainability

Equipping our residents with the skills to lead self-sustaining lives

Program

Phase 1: Individual psychological and physical well-being.

Phase 2: Social well-being and integration within program

Phase 3: Education/Training

Phase 4: Placement with a priority on family/foster home. Career planning for 17 & up.
